## A propos de ce livre

Ceci est une copie numérique d'un ouvrage conservé depuis des générations dans les rayonnages d'une bibliothèque avant d'être numérisé avec précaution par Google dans le cadre d'un projet visant à permettre aux internautes de découvrir l'ensemble du patrimoine littéraire mondial en ligne.

Ce livre étant relativement ancien, il n'est plus protégé par la loi sur les droits d'auteur et appartient à présent au domaine public. L'expression "appartenir au domaine public" signifie que le livre en question n'a jamais été soumis aux droits d'auteur ou que ses droits légaux sont arrivés à expiration. Les conditions requises pour qu'un livre tombe dans le domaine public peuvent varier d'un pays à l'autre. Les livres libres de droit sont autant de liens avec le passé. Ils sont les témoins de la richesse de notre histoire, de notre patrimoine culturel et de la connaissance humaine et sont trop souvent difficilement accessibles au public.

Les notes de bas de page et autres annotations en marge du texte présentes dans le volume original sont reprises dans ce fichier, comme un souvenir du long chemin parcouru par l'ouvrage depuis la maison d'édition en passant par la bibliothèque pour finalement se retrouver entre vos mains.

## Consignes d'utilisation

Google est fier de travailler en partenariat avec des bibliothèques à la numérisation des ouvrages appartenant au domaine public et de les rendre ainsi accessibles à tous. Ces livres sont en effet la propriété de tous et de toutes et nous sommes tout simplement les gardiens de ce patrimoine. Il s'agit toutefois d'un projet coûteux. Par conséquent et en vue de poursuivre la diffusion de ces ressources inépuisables, nous avons pris les dispositions nécessaires afin de prévenir les éventuels abus auxquels pourraient se livrer des sites marchands tiers, notamment en instaurant des contraintes techniques relatives aux requêtes automatisées.

Nous vous demandons également de:

- + *Ne pas utiliser les fichiers à des fins commerciales* Nous avons conçu le programme Google Recherche de Livres à l'usage des particuliers. Nous vous demandons donc d'utiliser uniquement ces fichiers à des fins personnelles. Ils ne sauraient en effet être employés dans un quelconque but commercial.
- + *Ne pas procéder à des requêtes automatisées* N'envoyez aucune requête automatisée quelle qu'elle soit au système Google. Si vous effectuez des recherches concernant les logiciels de traduction, la reconnaissance optique de caractères ou tout autre domaine nécessitant de disposer d'importantes quantités de texte, n'hésitez pas à nous contacter. Nous encourageons pour la réalisation de ce type de travaux l'utilisation des ouvrages et documents appartenant au domaine public et serions heureux de vous être utile.
- + *Ne pas supprimer l'attribution* Le filigrane Google contenu dans chaque fichier est indispensable pour informer les internautes de notre projet et leur permettre d'accéder à davantage de documents par l'intermédiaire du Programme Google Recherche de Livres. Ne le supprimez en aucun cas.
- + *Rester dans la légalité* Quelle que soit l'utilisation que vous comptez faire des fichiers, n'oubliez pas qu'il est de votre responsabilité de veiller à respecter la loi. Si un ouvrage appartient au domaine public américain, n'en déduisez pas pour autant qu'il en va de même dans les autres pays. La durée légale des droits d'auteur d'un livre varie d'un pays à l'autre. Nous ne sommes donc pas en mesure de répertorier les ouvrages dont l'utilisation est autorisée et ceux dont elle ne l'est pas. Ne croyez pas que le simple fait d'afficher un livre sur Google Recherche de Livres signifie que celui-ci peut être utilisé de quelque façon que ce soit dans le monde entier. La condamnation à laquelle vous vous exposeriez en cas de violation des droits d'auteur peut être sévère.

## À propos du service Google Recherche de Livres

En favorisant la recherche et l'accès à un nombre croissant de livres disponibles dans de nombreuses langues, dont le français, Google souhaite contribuer à promouvoir la diversité culturelle grâce à Google Recherche de Livres. En effet, le Programme Google Recherche de Livres permet aux internautes de découvrir le patrimoine littéraire mondial, tout en aidant les auteurs et les éditeurs à élargir leur public. ## P R E F A C E.

**L**E Dictionnaire de Boyer est connu depuis long-temps. Les propriétaires de cet ouvrage dont on a épaisé 22 impressions, désiraient de cultiver la bienveillance du Public par de nouveaux efforts pour le rendre plus utile, nous ont chargé de la revision; et si on compare cette nouvelle édition avec celles qui ont précédé, on s'apercevra, sans peine, que nous avons tellement refondu l'ouvrage qu'il n'en reste guère que ce titre qui, faute d'un meilleur vocabulaire, faisoit demander le livre avec avidité.

Si nous n'avions donné plusieurs preuves de notre expérience en fait de philologie, nous n'aurions touché qu'avec une main tremblante au Dictionnaire de Boyer. Différens éditeurs moins scrupuleux s'étoient permis d'ajouter aux anciennes éditions, quelquefois assez heureusement, souvent d'une manière très-obscurc ou très-déplacée. Ce que nous avons trouvé de bon, nous nous sommes fait un devoir de le laisser; ce qui nous a paru demander correction, nous l'avons corrigé; ce que nous avons jugé être inutile, nous l'avons supprimé, pour faire place à plusieurs observations grammaticales regardées comme justes et utiles, mais pas assez connues; et à un grand nombre de mots qui ne se trouvoient pas dans les éditions précédentes; enfin aux termes et aux phrases qui forment comme un dialecte particulier aux gens de mer, partie que l'on avoit à peine effleurée bien que des plus nécessaires.

On ne savoit pas exactement pourquoi l'infinitif François se présenteoit quelquefois avec *de*, quelquefois avec *à*, quelquefois avec *pour*: aux mots *A*, *De*, *Pour*, on verra les raisons qui exigent que l'un s'emploie au lieu de l'autre; et les observations sur ces mots rendront compte de l'emploi qu'on en fait encore avec les substantifs.

On ignoroit dans quelles circonstances le mode subjonctif François devoit absolument prendre la place du mode indicatif; en lisant les observations ajoutées au mot *subjonctif*, on verra que ce mode ne s'emploie que par déguisement ou modification, c'est-à-dire, lors qu'on sort de la nature, en privant le verbe de sa fonction naturelle.

Aux mots *Réfléchi* et *Réciproque*, on trouvera encore des observations d'autant plus utiles que les Grammairiens ou n'ont osé en parler, ou ont sauté légèrement sur les difficultés que présenteoit une matière qui n'avoit pas été approfondie.

Enfin nous avons développé, dans la première partie du dictionnaire, le génie de la langue Française et celui de la langue Angloise, autant que les bornes qui nous avoient été assignées nous permettoient de le faire; et lorsque ces bornes nous ont ôté la liberté d'éclaircir certains points, nous avons indiqué celui de nos ouvrages que l'on pourroit consulter avec avantage.

Afin de rendre à chaque mot François et son vrai sens, et les différentes acceptions dont il est susceptible, nous avons eu recours aux définitions de l'Académie.

Le plan que nous avons adopté à l'égard des adjectifs est plus juste que celui qu'on avoit suivi: nous allons l'expliquer. Les adjectifs qui, au masculin, se terminent par un *e* muet, sont des deux genres (la langue Française ne reconnoit que le masculin et le féminin); ainsi ces sortes d'adjectifs doivent se regarder comme et du masculin et du féminin: par exemple, *Avidé* se trouve dans notre édition, *Avide*, *a.* ce qui signifie que cet adjectif est *Avide* pour le masculin, et encore *Avide* pour le féminin. La plupart des autres adjectifs, demandant qu'on leur ajoute *e* muet pour les rendre du genre féminin, nous l'avons indiqué par *e* placé après chacun de ces adjectifs: que l'on cherche *Grand*, on verra *Grand*, *e, a*; ce qui signifie que l'adjectif *Grand* pour le masculin doit devenir *Grande* pour le féminin: donc, *Estimé*, *e, a.* est comme si nous avions dit que l'adjectif *Estimé* devenoit *Estimée* pour le féminin; et ainsi des autres de la même classe. Il y a des adjectifs qui, se terminant avec une consonne, demandent qu'on double cette consonne avant d'ajouter l'*e* qui caractérise le genre féminin; on ne pourra s'y méprendre dans notre édition: que l'on cherche *Net*, on verra, *Net, te, a*; ce qui signifie que l'adjectif *Net* pour le masculin devient *Nette* pour le féminin: donc, *Gros, se, a.* est comme si nous avions dit que l'adjectif *Gros* doit devenir *Grosse* pour le féminin, &c. Certains adjectifs demandent que, pour le féminin, l'on change leur consonne finale en passant du masculin au féminin; nous avons annoncé ce changement en plaçant un tiret avant la consonne finale de l'adjectif; puis nous avons indiqué ce qui, pour le féminin, doit remplacer la consonne ainsi détachée: au mot *Dangereux* dans notre édition, on verra *Dangereu-x, se, a*; ce qui fait entendre que l'adjectif *Dangereux* devient pour le féminin *Dangereuse*: au mot *Flatteur* on verra *Flatteu-r, se, a*; donc l'adjectif masculin *Flatteur* devient *Flatteuse* pour le féminin: au mot *Roux*, on verra *Rou-x, se, a*; ce qui signifie que l'adjectif masculin *Roux* doit devenir *Rousse* pour le féminin: au mot *Doux*, on verra *Dou-x, ce, a*; cela veut dire que l'adjectif masculin *Doux* devient *Douce* pour le féminin: au mot *Caduc*, on verra *Cadu-c, que, a*; ce qui fait entendre que l'adjectif masculin *Caduc* doit devenir *Caducue* pour le féminin: au mot *Vif*, on verra *Vi-f, ve, a*; cela veut dire que l'adjectif masculin *Vif* devient *Vive* pour le féminin. Certains adjectifs ou noms de qualité se terminent en *eur* pour le masculin, et demandent que cette terminaison *eur* se change en *rice* pour le féminin; nous avons indiqué ce changement en plaçant un tiret avant *eur*, et en ajoutant *rice*, toutes les fois que le mot Anglois pouvoit exprimer et le masculin et le féminin: que l'on cherche le mot *Dispensateur*, on verra *Dispensat-eur, rice, s. m. & f.*; ce qui fait entendre que le substantif masculin *Dispensateur* peut devenir *Dispensatrice* pour le féminin, et que l'un et l'autre se rendent de même en Anglois. Mais quoique le mot *Protecteur* devienne *Protectrice* par la même règle, cependant chacun de ces mots se trouve à sa place, parce que *Protecteur* est *Protecteur* en Anglois, au lieu que *Protectrice* est *Protectress*. Dans certaines circonstances ce n'est pas la terminaison seule qui se trouvera indiquée, on verra l'adjectif entier pour le masculin, suivi de l'adjectif entier pour le féminin; par exemple: *Sec, Sèche, a.* veut dire que l'adjectif masculin *Sec* devient *Sèche*

pour le féminin.—Dans la plupart des dictionnaires on voit Grand, ande; Net, ette; Gros, osse; Dange-reux, euse; Roux, oussé; Doux, ouce; Caduc, uque; or, un étranger en les consultant, pourroit croire que le féminin de Grand est Grandande; que celui de Net est Netette; que celui de Gros est Grososse, &c.

Ceux qui désirent de faire des progrès rapides dans une langue, doivent aussitôt qu'il est possible, se bien familiariser avec les différentes inflexions dont les mots sont susceptibles: ils doivent sur-tout se bien imprimer dans la mémoire les inflexions qui caractérisent les différentes personnes de chaque temps: ils doivent faire ensorte d'être sûrs de la formation du participe et présent ou actif et passé ou passif, ainsi que de celle de chacun des temps simples. Pour les temps composés, comme ils se forment au moyen du participe passé ou passif précédé des temps des verbes Avoir ou Etre, il faut se bien mettre ces deux auxiliaires dans la mémoire.

Dans les éditions précédentes, certains verbes se trouvoient marqués *V. Impers.* ce qui, pour chacun, signifioit que ce verbe étoit impersonnel; mais voyez l'observation ajoutée au mot *Impersonnel*.

Dans ces éditions on avoit, à la suite de chaque verbe irrégulier, ajouté le participe présent, le participe passé, et la première personne du singulier de chaque temps simple: mais comme la table que nous donnons comprend tous les verbes irréguliers aussi bien qu'un verbe régulier pour chacune des quatre conjugaisons que nous admettons dans la langue Française, il est clair qu'en supprimant à chaque verbe irrégulier, qui se présenteoit dans le dictionnaire, les additions dont nous venons de parler, nous avons évité de répéter ce que l'on peut trouver dans notre table des verbes.—Puisque nous n'admettons que quatre conjugaisons; la première en *er*, la seconde en *ir*, la troisième en *oir*, et la quatrième en *re*; ces terminaisons sont si distinctes par elles-mêmes que nous n'avons pas eu besoin d'ajouter à chaque verbe un chiffre pour annoncer à quelle conjugaison il appartenoit. La table de Chambaud qu'on avoit fait mettre en tête des éditions précédentes rendoit ces chiffres indispensables, puisqu'au-lieu de 4 sortes de verbes Chambaud en reconnoissoit 10.

Les verbes qui sont réguliers en Anglois ont chacun le participe passé ou passif et le prétérit en *ed* qui s'ajoute à l'infinitif (sans *to*); observant que pour les verbes qui se terminent par un *e* muet, il faut supprimer cet *e* muet; et pour ceux qui se terminent par un *y*, avant lequel il ne se trouve pas immédiatement une autre voyelle, il faut changer l'*y* en *i* avant *ed*; et que ceux qui se terminent par une consonne, qui simple de son, est immédiatement précédée d'une seule voyelle, exigent, lorsque ce sont des monosyllabes, ou lorsqu'étant de plus d'une syllabe, ils ont l'accent sur la dernière syllabe, que cette consonne finale se répète avant *ed*, de même qu'avant la terminaison *ing* qui caractérise le participe présent. *Ex.*

Infinitif.	Participe Présent.	Participe Passé.	Prétérit.
to charm	charming	charmed	I charmed
to love	loving	loved	I loved
to cry	crying	cried	I cried
to envy	envying	envied	I envied
to beg	begging	begged	I begged
to mix	mixing	mixed	I mixed
to admit	admitting	admitted	I admitted

L'irrégularité de quelques verbes Anglois n'est guère que dans le prétérit, ou le participe passé ou passif, quelquefois dans l'un et l'autre. Lorsque le verbe étoit irrégulier, nous avons indiqué l'irrégularité: par exemple, en cherchant le verbe *Give*, on trouvera, *to give*, *v. a.* Prêt, *gave*. Part, *given*, ce qui signifie que le verbe *to give* doit être *I gave* au prétérit, et *given* au participe passé ou passif; qu'il faut donc dire pour j'avois donné, *I had given*; et pour je suis donné, *I am given*, &c.

En Anglois, il n'y a presque pas de verbe, soit actif, soit neutre, dont le participe présent (dont nous avons suffisamment indiqué la formation) ne puisse s'employer comme un substantif, pour exprimer l'un *le faire*, l'autre *l'être*, c'est-à-dire, l'un *l'action* que signifie le verbe actif, l'autre *l'état ou la situation* que signifie le verbe neutre. Donc, il arrive souvent que la terminaison Angloise *ing* est l'équivalent de cette terminaison Française *ment* qui s'ajoute à la première personne du présent du subjonctif: de *to soften* (adoucir) les Anglois peuvent dire, *the softening* (l'adoucissement): de *to rejoice* (se réjouir) les Anglois peuvent dire *rejoicing* (réjouissance), &c. Or, comme les lexicographes Anglois ne font pas attention à ces sortes de noms verbaux, il étoit nécessaire de mettre le lecteur sur ses gardes. Observons encore, en passant, que le participe présent Anglois se trouve continuellement employé comme un adjectif dans des circonstances où le participe présent François seroit très-déplacé. D'ailleurs les Anglois emploient souvent ces sortes de participes présents d'une manière qui demande un changement considérable dans le tour de la phrase, lors qu'on veut la rendre en François. *Ex.*

*Your writing to court* about that affair *might do you more harm than good.* Si vous alliez écrire à la cour touchant cette affaire, cela pourroit vous faire plus de mal que de bien; ou, Vous pourriez vous laire plus de mal que de bien, en écrivant à la cour touchant cette affaire.

*We had not walked far before Mrs. Beverley complained of her being tired, and proposed our sitting down.* Nous n'avons pas fait beaucoup de chemin, que Madame Beverley se plaignit d'être (qu'elle étoit) fatiguée, et nous proposa de nous asseoir.

*After my father's having experienced many a vicissitude, he found himself, at the age of fifty, possessed of a very large fortune.* Mon père, après avoir essayé bien des vicissitudes, se trouva, (ou, après que mon père eut essayé bien des vicissitudes, il se trouva), à l'âge de cinquante ans, en possession d'un bien très-considérable.

The middlestation of life seems to be the most advantageously situated for the attaining of wisdom: poverty turns our thoughts too much upon the supplying of our wants; and riches upon enjoying our superfluities. La situation intermédiaire de la vie paroît être celle qui est placée le plus avantageusement pour parvenir à la sagesse; la pauvreté nous fait trop penser à subvenir à nos besoins; et les richesses, à jouir de notre

superflu. Dans le dernier passage *enjoying* est un vrai verbe au participe présent ; mais si Addison eût dit *the enjoying of* (il auroit pu le dire), le mot *enjoying* seroit devenu substantif, puisqu'il auroit été employé comme un nom verbal.

Le comparatif et le superlatif se trouvent souvent exprimés en Anglois par des terminaisons ; par *er* au lieu de *more* en tête, et par *est* au lieu de *most* en tête. Les Anglois peuvent dire *handsomer* ou *more handsome* pour notre *plus beau, plus belle, &c.* et *the handsomest* ou *the most handsome* pour le *plus beau, la plus belle, &c.* : ils peuvent dire *easier* ou *more easy* (plus facile) et *the easiest* ou *the most easy* (le plus facile, &c.) : ils peuvent dire *often* ou *more often* (plus souvent) et *the oftenest* ou *the most often* (le plus souvent) ; ils peuvent dire *fitter* ou *more fit* (plus convenable) et *the fittest* ou *the most fit* (le plus convenable, &c.) Or, pour cette espèce de composition, ce que nous avons observé à l'égard de la terminaison *ed*, pour le participe passé ou pour le présent, peut s'appliquer aux terminaisons *er* et *est*.

Le pluriel des noms ou substantifs se forme ordinairement par l'addition de *s* ; il faut seulement se souvenir que lorsque le nom se termine au singulier en *ch, s, sh, ss, x, o*, il faut ajouter *es* pour le pluriel ; que lorsque le nom se termine au singulier en *y* (sans voyelle immédiatement avant *y*) il faut, pour le pluriel, changer *y* en *i* et ajouter *es* à cet *i* ; et que lorsque le nom se termine au singulier en *f* ou *fe*, on change ordinairement *f* ou *fe* en *ves* pour le pluriel. Or, la terminaison *es* forme toujours une syllabe distincte après *ch, s, sh, ss, x*, et même dans les mots qui se terminant au singulier par *ce, ge, se*, reçoivent seulement *s* pour le pluriel. *Er.*

Comme la troisième personne du singulier doit, au présent des verbes, se caractériser par l'addition de *s* ou *n* autrefois, et même encore dans le style élevé, par l'addition de *th* ou *eth*, les observations, que nous venons de faire à l'égard de la formation du pluriel des noms, peuvent s'appliquer à la formation de la troisième personne du singulier pour le présent des verbes, puisque cette personne se caractérise de la même manière que se caractériseroit le pluriel des noms.

A l'égard des noms ou substantifs Anglois, il ne suffisoit pas d'indiquer les mots qui, en François, forment des équivalens, il falloit faire connoître le genre de chacun de ces mots François afin que le lecteur ne fût pas obligé, à chaque mot, d'avoir recours à la première partie du Dictionnaire. Aussi lorsque le substantif François ne se trouvoit pas précédé d'une espèce d'adjectif propre de soi-même à déterminer le genre, nous avons ajouté au substantif ou *m.* qui signifie *masculin*, ou *f.* qui signifie *féminin*. Lorsque, dans l'énumération des différens équivalens, il s'en trouvoit de suite plusieurs qui étoient du même genre, nous n'avons pas répété le signe pour chacun, nous avons cru qu'il suffisoit de placer ce signe après le dernier, et l'on doit entendre par là que chacun des mots précédens qui se voient sans signe, est du même genre que celui auquel le signe se trouve ajouté.

La langue Angloise, comme la langue Grecque, abonde en mots composés, et, comme il arrive souvent que les lexicographes passent par dessus ces mots, il devient nécessaire de mettre encore le lecteur sur ses gardes. — La plupart de ces mots composés s'emploient pour rendre le discours plus serré et par conséquent plus rapide. En effet, pour donner l'équivalent d'un mot composé, il faut souvent faire usage d'une préposition ou d'un verbe que la transposition fait supprimer.

Lorsque deux noms se présentent dont l'un particularise l'autre, celui qui particularise peut se placer comme une espèce d'adjectif avant le nom particularisé. *Une montre d'or*, se rend en Anglois par *a gold watch* (au lieu de *a watch of gold*) ; et un moulin à poudre, par *a powder mill*, (au lieu de *a mill for powder*) ; et marché au foin par *hay market* (au lieu de *market for hay* ou *market where they sell hay*) ; et de la sauce aux oignons, par *onion sauce* (au lieu de *sauce with an onion or some onions in*) ; et la femme aux pommes ou la femme qui vend des pommes par *the apple-woman*.

Souvent un nom qui particularise un adjectif se trouve placé, en Anglois, avant cet adjectif, comme s'il devoit y faire la fonction d'un adverbe ; *digne de remerciemens*, *thank worthy* ; aussi haut que la poitrine, *keast high* ; bâti en l'air, *air-built*.

Le participe présent et le participe passé se trouvent bien plus souvent employés comme adjectifs en Anglois qu'on ne les voit en François ; au moyen de laquelle construction on voit disparaître ou quelque préposition ou un pronom conjonctif, tel que *qui, que, dont, &c.* et quelquefois et la préposition et le pronom conjonctif ; comme dans : *Her heaven-aspiring wing*, pour *Her wing which aspires to heaven* ; ou *Thy all-directing hand* ; pour *Thy hand which directs all* ; et *My care-tuned tongue*, pour *My tongue tuned by care* ; et *All-shaking thunder*, pour *Thunder which shakes all* ; et *Heat-oppressed brain*, pour *Brain oppressed by heat* ; et *Heart-easing mirth*, pour *Mirth which eases the heart* ; et *Ivy-mantled tower*, pour *Tower mantled with ivy* ; et *Incense-breathing morn*, pour *Morn which breathes incense*.

Souvent un substantif prend la terminaison d'un participe passif, et, devenu ainsi une espèce d'adjectif il se voit précédé d'un nom qui le particularise ou d'un adjectif qui a la force d'un adverbe ; comme d<sup>ns</sup> : *Rose-ty'd* (*typp'd*) *health*, pour *Health which has lips like roses* ; et *young-ey'd* (*eyed*) *spring* pour *spring which has young eyes* ; et *White-rob'd* (*robed*) *peace*, pour *Peace which is dressed in a white robe* ; et *Bright-haired Vesta*, pour *Vesta whose hair is bright* ; et *The weak-eyed bat*, pour *That which has weak eyes* ; et *My weak-hearted enemies*, pour *My enemies whose hearts are weak* ; et *Straw-roof'd cot*, pour *Cot covered with a roof of straw* ; et *Neat-handed Phyllis*, pour *Phyllis whose hands are neat* ;

et *Full-winged eagle*, pour *Eagle that has full wings*; et *Hydra-headed wilfulness*, pour *Wilfulness that has a head like that of hydra*.

Souvent, enfin, l'on trouve (sur-tout dans les poëtes) des adjectifs employés au lieu d'adverbes; comme dans: *Deep-judging sage*, pour *Sage deeply judging* ou *Sage that judges deeply*; et *Broad-spread boughs*, pour *Boughs spread broadly* ou *widely*; et *Breeze soft-breathing*, pour *Breeze which breathes softly*; et *Wide-watered shore*, pour *Shore watered widely*.

Les Anglois, qui désirent de bien acquies la langue Française, peuvent consulter notre ouvrage intitulé, *The Complete System of the French Language*: ils y verront dans quelles circonstances un mot doit, dans la prononciation, paroître tellement lié avec le suivant que l'un et l'autre semblent n'en être qu'un: ils y verront quand *e* sans accent doit former une syllabe, et quand *e* sans accent ne doit pas se prononcer; et ils sentiront alors pourquoi il arrive souvent qu'ils n'entendent pas ce que leur dit un François qui, par exemple, prononce en quatre syllabes cette phrase *Je ne sais pas cela*, qu'ils regarderoient comme en contenant six; ils y trouveront des règles et des remarques originales qui leur feront connoître toutes les délicatesses de la langue Française, et les nombreux exemples, tirés des meilleurs auteurs François, prouveront que ces règles et ces remarques portent sur les plus sûrs fondemens.

Nous n'avons pu faire aucun changement à l'égard de l'accent Anglois, parce que les bornes qu'on nous avoit prescrites ne nous permettoient pas de suivre, à l'égard de la prononciation Angloise, le plan qui seul peut lever les difficultés qu'elle présente aux étrangers: mais ils peuvent se procurer l'ouvrage intitulé, *"Sheridan's Pronouncing and Spelling Dictionary,"* réédité par nous en un manuel.—Dans le journal littéraire intitulé, *"The British Critic,"* pour le mois de Novembre, 1800, on peut voir, p. 575 et 576, l'éloge qu'on y fait de la manière dont nous avons formé cet ouvrage si nécessaire à ceux qui étudient la langue Angloise.

Les personnes qui souhaitent de bien connoître le génie de la langue Angloise et celui de la langue Française peuvent consulter notre *"Grammaire Angloise comparée avec la Grammaire Française."* Nous leur indiquons encore cet ouvrage avec d'autant plus de confiance que les Editeurs des journaux littéraires Anglois en ont tous parlé avec les plus grands éloges. Nous nous contenterons de donner ici la traduction de deux extraits.

Article 56 du journal intitulé *"The British Critic"* pour le mois d'Octobre 1797, p. 449.

"Parmi ce nombre si considérable de Grammaires qui sortent maintenant de la presse sur l'Anglois et sur le François, nous ne saurions douter qu'un ouvrage par Mr. Salmon ne doive mériter une attention particulière. Son Dictionnaire Etymologique Latin, intitulé, *Stemmata Latinitatis*, de l'examen duquel nous rendîmes compte dans notre 8<sup>e</sup> vol. p. 264, étoit un ouvrage d'une pénétration si singulière, de recherches si étendues, et d'une utilité si grande, qu'on ne pouvoit manquer de reconnoître dans son compilateur un homme doué à un degré très-particulier des qualités nécessaires pour approfondir les propriétés et les idiomes des langues. Dans l'ouvrage sous nos yeux, Mr. Salmon paroît développer abondamment les mêmes qualités, et assurément il discute plusieurs points difficiles avec une pénétration qu'auparavant l'on n'y a pas employée. Quoique le but principal de l'auteur soit d'enseigner l'Anglois aux François, sa grammaire peut cependant se recommander à ceux des jeunes gens de notre propre pays qui ont fait quelque progrès dans la langue Française, comme un ouvrage qui non-seulement leur sera d'un grand secours pour parvenir à la posséder, mais les perfectionnera encore dans la connoissance de leur propre langue. Nous ne doutons pas non plus que, comme le titre l'annonce, les François ne trouvent dans cette Grammaire des remarques tout à la fois nouvelles et importantes sur la langue de leur patrie. Nous avons rarement vu un ouvrage qui, en un volume si petit, renfermât tant de choses. Pour se former une idée des soins remarquables que s'est donnés l'auteur, on n'a qu'à lire ses règles sur cette difficulté presque insurmontable aux François qui étudient l'Anglois, la prononciation de notre *th*; ces règles sont dans son ouvrage des page 6 à 10."

Article lxviii. du journal intitulé, *Analytical Review*, pour le mois de Janvier 1798, pages 95, 96.

"Rien ne peut être plus propre à faire connoître profondément la grammaire, que des tableaux où l'on compare différens idiomes ensemble. La comparaison établie dans l'ouvrage de Mr. Salmon, entre l'Anglois et le François, est toujours présentée avec jugement. L'auteur appuie beaucoup sur les particularités qui, dans les deux langues, requièrent une construction différente, et donne de nombreux exemples pour en éclaircir les difficultés. Il a très-pleinement, et, pour ceux qui sont accoutumés aux termes métaphysiques, très-intelligiblement expliqué aux étrangers la partie difficile des auxiliaires à l'égard des verbes, sur-tout l'emploi de *shall* et *will*, de *should* et *would*."

## AVERTISSEMENT.

**I**l y a des auteurs qui négligent de doubler la consonne dans les syllabes où l'usage commun le requiert ; il y en a d'autres qui doublent la consonne, quoique l'usage y répugne ; les uns écrivent *apeler*, *apelant*, &c. au lieu de *appeler*, &c. les autres écrivent *appercevoir* au lieu de *apercevoir*. De même, en Anglois, les uns écrivent *to abbreviate*, au lieu de *to abbreviale* : les autres écrivent *to abbridge* au lieu de *to ulridge*, &c. Donc si un mot ne se trouve pas avec la double consonne dans une syllabe, il faut le chercher avec la seule consonne ; et *vice versâ*.

Plusieurs personnes suppriment le *c* que l'usage demande avant *q* : or *aquéreur*, *aquérir*, *aquéit*, *aquiescer*, *aquitter*, &c. ne se trouvant point dans le dictionnaire, il faut chercher *acquéreur*, &c.

Dans plusieurs mots on emploie aujourd'hui *ai* au lieu d'*ay* ; on écrit avec raison *aieul*, *laionette*, &c. au lieu de *ayeul*, *bayonnette*, &c.

Il y a des mots où l'on employoit autrefois *ai* au lieu de *é* ou de son équivalent : on écrivoit alors *aisse*, *aissieu*, *alaigne*, &c. et ces mots, on les écrit maintenant *esse*, *essieu*, *aligre*, &c.

On trouvoit autrefois *d* avant *j*, dans plusieurs mots on écrivoit *adjournement*, *ajouter*, &c. que l'on écrit à présent, *ajournement*, *ajouter*, &c.

Quantité de mots s'écrivoient avec *es* dans la première syllabe, lesquels s'écrivent aujourd'hui simplement avec *é* : dans d'autres syllabes on a changé *es* en *é* : on écrit à présent *estonner*, *honnête*, &c. au lieu de *estonner*, *honneste*, &c. Cette *s*, qui se trouvoit placée après une voyelle ou une diphthongue, s'est donc changée dans plusieurs mots en un accent circonflexe et s'est simplement supprimée dans d'autres : au lieu de *asne* on écrit *âne*, et au lieu de *adjouster* on écrit *ajouter*.

L'*e* muet qui se trouve dans la plupart des mots avant la terminaison *ment*, disparaît néanmoins dans plusieurs circonstances, sur-tout après *i* & *u* : comme dans *remerciement*, *étternement*, &c. que plusieurs écrivent pourtant encore, *remerciement*, *étternement*, &c.

On supprime aussi maintenant l'*e* que l'on écrivoit autrefois avant *u* dans plusieurs mots, tels que *meur*, *meurir*, *seur*, *deu*, *accreu*, &c. au lieu desquels il faut écrire *mûr*, *mûrir*, *sûr*, *dé*, *accré*, &c. Comme il y a des écrivains qui suppriment *h*, il s'ensuit que si *angar* ne se trouve pas sous la lettre *a*, il faut chercher *hangar*, sous la lettre *h*.

Une terminaison nasale ne doit plus être nasale quand on y a ajouté *e* muet pour rendre le mot féminin. Dans l'adjectif *Brun*, *e*, *a*. *Brun* est nasal ; mais dans son féminin *Brune* la lettre *u* doit prendre le son qui lui est naturel ; et la lettre *n*, à cause de l'*e* muet qui vient à sa suite, doit aussi prendre le son qui lui est naturel au lieu du son nasal. Donc une consonne finale qui ne se prononceroit pas, doit, lorsqu'on ajoute un *e* muet, quelle qu'en soit la cause, se prononcer avec le son qui est naturel à cette consonne lorsqu'on la joint avec une voyelle ; comme dans *discret*, *discrète*, et *il rend*, *il rende*, *ils rendent*, et *créancier*, *créancière*, &c.

Comme le *k* ne se trouve pas dans les mots qui sont François, il ne faut pas s'étonner de ce que l'on voit, dans certains mots empruntés des langues étrangères, le *c* substitué au *k* qui, dans ces langues, est une de leurs consonnes.

Il y a d'ailleurs des écrivains qui, dans certains mots, emploient *o*, au lieu de *au* ; d'autres qui, dans certains mots, emploient *au* au lieu de *o* : il y en a qui écrivent *i* où l'usage demande *y* ; il y en a d'autres qui écrivent *y* où l'usage préfère *i* : il se trouve des écrivains qui, dans certains mots, emploient *s* ou *ss* au lieu du *c* doux ; il s'en trouve d'autres qui au lieu de *s* ou *ss* emploient le *c* doux : il s'en trouve qui, dans certains mots, emploient *ph* au lieu de *f* ; et il s'en trouve qui au lieu de *ph* emploient *f*, &c.

Il est des personnes qui écrivent *am* au lieu de *em* ; d'autres qui écrivent *em* où l'usage demanderoit *am* ; d'autres enfin qui écrivent *en* pour *an* ou bien *an* pour *en* : on écrivoit autrefois *solemnel*, &c. on préfère maintenant *solennel*, &c. Au lieu de *colonne*, &c. on écrit aujourd'hui *colonne*, &c.

Il y a des auteurs Anglois qui écrivent *im*, *in*, &c. pour *em*, *en*, &c. il y en a qui écrivent *em*, *en*, &c. pour *im*, *in*, &c. On voit donc tantôt *imploy*, &c. tantôt *employ*, &c. on voit encore tantôt, *intire*, &c. tantôt *entire*, &c. Or lorsqu'un mot ne se trouve pas sous une orthographe, il faut le chercher sous une autre ; et c'est ce que nous avons voulu faire sentir par ces différences que nous venons de détailler.

EXPLANATION OF S/N'S

The last syllabic termination of the infinitive as there are in French Verbs four such terminations, four conjugations.

The Verb wherein one of those terminations is fixed to these letters, is a regular Verb, & to regular Verbs of the same conjugation; the last each that termination receives for every simple.

The Verbs which follow each regular Verb, whose derivatives are to be collected in the same inflections as their primitive. Again conjugated like ouvrir; the Verbs c, s'acquérir, are to vary, like acquérir, in the second conjugation. When

A

**A**, First letter in the alphabet, and first of the vowels.

A, s. m. A. Un bon A, a good A; Il ne fait ni A ni B, he knows not A from B, he is a mere ignoramus.

A, is sometimes the third person singular of the present in the indicative mood of the verb avoir. Il a, he has; elle a, she has; on a, one has, people have. Il y a, there is (speaking of one), there are (speaking of several).

A, with the grave accent over it, when not a capital, is a preposition, for which the English *chicru* but not indiscriminately use at, to, in, into, by, and, with, within, at the distance of, on, for, after, according to, &c. Now instead of à le or a la, before a vowel not aspirate, or before h mute, the French use à l'; instead of à le before a consonant they use au; and instead of à les they use aux: A ce prix-là, at that rate; à raison de cinq pour cent, at the rate of five per cent; il sera ici à dix heures, he will be here at ten o'clock; elle est assise à la porte, she is sitting at the door; nous jouons souvent aux cartes, we often play at cards; il vise à cet emploi, he aims at that piece; cela est arrivé à Paris, that happened at Paris. Allez à Paris, go to Paris; venez à Londres, come to London; à l'amî, to the friend; à l'homme, to the man; à l'ame, to the soul; au roi, to the king; à la reine, to the queen; aux officiers, to the officers. Il demeure à Douvre, he lives in Dover; votre chapeau est à la mode, your hat is in the fashion; (see hereafter). J'irai à la campagne, I shall go into the country. A la faveur de la nuit, by the help of the night; à force de, by strength of, by dint of; au moyen de, by means of. Bâti à chaux et à sable, to build with

lime and sand; travailler à l'aiguille, to work with the needle; à grande peine, with much trouble; Je n'ai pas encore vu l'homme au nez rouge, I have not yet seen the man with a red nose, or whose nose is red. A deux doigts de terre, within two inches of the ground, or at the distance of two inches from the ground. A droite, or à main droite, on the right hand; an contraire, on the contrary. Faites un habit à mon domestique, make a coat for my servant; Voulez-vous que cet habit soit à la Française? Will you have that coat be after the French fashion? (see before). A ce qu'on dit, according to what people say, by what people say, as people say; à mon avis, according to my opinion, in my opinion.

This preposition à is also used in reckoning games: Quatre à rien, four to nothing; cinq à cinq, five all; trois à quatre, three to four; &c. à is also used to express a progressive succession in an ordinal march, when the word is repeated, and then à is equal to by or and. Ils marchoient trois à trois, they were walking three by three, or three and three; pas à pas, step by step. See EN.

The following observations will, the Editor hopes, be of service to the student.

I. When a verb is found to govern an accusative in regard to the thing, whether this be expressed by a noun or by a phrase, the person (or what is used instead of the person), governed by the same verb, is generally to be considered as if affected by to (à, said to be the sign of the dative case), let the manner in which it is presented be with or without any preposition: Elle dit la même chose à mon frère, she tells the same thing to my brother, or (by transposing the person governed before the

thing governed, which transposition allows the suppression of the preposition in English), she tells my brother the same thing; elle promet à mon frère qu'elle viendrait demain, she promised my brother that she would come tomorrow; nous primes à l'ennemi une quantité immense de provisions, we took from the enemy an immense quantity of provisions.

It is from the same cause that an infinitive affected by any part of faire, laisser, voir, ouïr, or entendre (considered each as an auxiliary verb), if that infinitive governs an accusative in regard to the thing, the person (or what is used instead of the person), considered as governed by the auxiliary verb, is often rendered as if affected by to (à), though the English preposition commonly used in these circumstances be by, when the second verb is introduced, passively. César fit promettre à Augustin de venir le voir au château, Cæsar made Augustine promise to come and see him at the castle; c'est un grand talent que de savoir faire aimer la vertu aux méchans; to know how to make the wicked love virtue (or virtue loved by the wicked) is a great talent.

II. The French preposition à is prefixed to an infinitive when the expression which governs it would require à (to) before the name of the thing for which the infinitive then stands, on account of a tendency towards the object, &c. hence, Il sera condamné à rendre l'argent, he will be condemned to return the money (because we say condamner une personne à une chose, to condemn a person to a thing). Or, when this infinitive has a pos-

A

sive meaning, though presented in an active form, in which circumstance it might govern in the accusative a preceding noun (or pronoun) which is already in one case: La question est difficile à résoudre, the question is difficult to solve or to be solved (here, la question might be made the accusative of résoudre; for, we might say, il est difficile de résoudre la question); J'ai deux ou trois lettres à écrire, I have two or three letters to write (to be written, which must be written, which I must write), or, I am to write (I must write), two or three letters.

III. As the French preposition à, prefixed to a noun, is often found to announce how far a qualification or modification extends, extended, or may extend, so, when prefixed to an infinitive, it may be found to announce the same; Une veste à manches, a waistcoat with sleeves to it, or that has sleeves; il aime à la folie, he loves to distraction; elle s'allie à la mort, she grieves herself to death; c'est un homme à tout faire, he is a man who will do any thing or fit for any thing; voilà un procès à vous ruiner, that is a law suit which is likely to ruin you; hence also, un maître à danser, a dancing master, or a master who teaches dancing.

IV. The French preposition à is often found to denote duty, part, or business, and even turn: C'est à moi à vous prouver, it is my duty (part or business) to prove to you, or I am to prove to you (with an emphasis upon my or I): c'est à vous à parler, it is your turn to speak; or now you are to speak (with an emphasis upon your or you).

V. The same preposition à serves to denote that possession or appertenance which, after a tense of to be in the sense of to belong to, causes the English possessor to be presented with 's (as if a termination) and the English of whom to become whose, when transposed: A qui est cette maison-ci? whose house is this? elle est à Monsieur Bernard, it is Mr. Bernard's. This 's being erroneously said to be the sign of the possessive case, see Salmon's First Principles of the English Grammar, where the nature of 's is traced to its origin.

VI. As de, when used instead of depuis and rendered in English by from, serves to announce the principle of action, or point from which one starts, has started, or is to start, so à (to) serves to announce the end of action, or point whereat an action ceases, has ceased,

or is to cease: hence, nous irons de Rochester à Douvre, we shall go from Rochester to Dover, V. Eu. ¶ Here it is proper to add, that if, for the principle of action we use depuis instead of de, we should, for the end of action, use jusqu'à (as far as) instead of à: hence, depuis du matin jusqu'au soir, or du matin au soir, from morning to night; de Londres à Paris, or depuis Londres jusqu'à Paris, from London to Paris.

VII. The French preposition à often disappears in making the French phrases English; for instance, when the principle of action happens to be placed after the end of action: A trois jours de là, three days after; à vingt lieues d'ici, twenty leagues off (hence or from this spot). Besides, the English language abounds with compound words, the initial of which particularises the next; and, to form these, a transposition takes place, whereby the preposition which would be used before the particularising noun, if to be expressed after the noun particularised, becomes suppressed: hence, un pot à l'eau, a water-pot; un moulin à vent, a wind-mill; une chaise à bras, an arm chair; une boîte à fusil, a tinder-box; de la sauce aux oignons, onion sauce; une bouteille à l'huile, an oil-bottle; le marché au foin, the hay-market; une femme aux huîtres, an oyster woman, &c. See, however, de, Obs. I. as also the examples of Observation I. here. Again, au, à la, aux, used to alarm or call assistance, disappear in English: au feu, fire; au voleur, thief.

VIII. The preposition for principle of action (de) is often left understood; and in this circumstance instead of from and to (according to Obs. VI.), the English may use about, then or; or between, then and: Ils étoient neuf à dix mille, they were about nine or ten thousand, or, they were between nine and ten thousand; for, they were from nine to ten thousand.

IX. Sometimes the French preposition à is found rendered by a in English, where it presents a sort of compound word: A bord, aboard (for on board); au lit, a-bed (for on bed or in bed).

¶ This English particle a is sometimes found before a participle present: he is gone a fishing, il est allé pêcher, or il est allé à la pêche; she is a writing, elle est à écrire or elle écrit.

 Avouerie, *s. f.* (droit de patronage) *avouerie*.  
 † Avoutre ou Avouêtre, *s. m.* *bastard from avowtry*.  
 Avoyé, *s. m.* (magistrat de quelques villes Suisses) *avoyer or avoyee*.  
 Auparavant, *adv.* *before*.  
 Auprès, *avec de, prep.* (tout contre) *near, by, about*. Sa maison est auprès de la mienne, *his house is near mine*; (marquant l'attachement domestique) *with, near, by, to*; être auprès d'un grand seigneur, *to live with a nobleman, be about him*; il réside auprès du prince, *he resides near the prince*; s'attacher auprès de quelqu'un,

to apply one's self to one; (en comparaison) to, in comparison; votre mal n'est rien auprès du mien, your distemper is nothing to mine.

Auprès ou tout auprès, *adv.* hard by, close. Par auprès (auprès, un peu à côté), *hard by, near, a little aside.*

Auquel (pour à lequel). *V.* Lequel.

Aurelie, *s. f.* Aurelia.

Auspice, *s. m.* (présage) auspice, presage, omen. \* Sous d'heureux auspices, auspiciously. \* Sous les auspices de quelqu'un (sous sa conduite, sa faveur, son appui), under one's auspices, conduct, guidance, protection.

Aussi, *conj.* (pareillement) also, too, likewise; (de plus) also, too, over and above; (c'est pourquoi) so, therefore, but then, accordingly; (à la tête d'une phrase et amenant la cause ou la raison de ce qui précède) and indeed, and truly, but or but indeed or but then (sur-tout après mais). Il est plus avisé que vous, aussi est-il plus âgé, he is wiser than you, and indeed, or but, or but indeed or but then, he is older. J'ai brûlé ce papier, aussi ne servoit-il de rien, I have burnt that paper, and indeed or and truly it was good for nothing. Il a été volé; mais aussi pourquoi va-t-il la nuit? he has been robbed; but then why does he go about in the night?

↳ Aussi, servant à amener une comparaison d'égalité, peut se rendre par *as* avant un adjectif ou un adverbe, et par *as much* avant un participe passif; et alors le *que* qui introduit le dernier membre de la comparaison se rend par *as*. Il est aussi sage que vaillant, he is as prudent as valiant. Il est aussi embarrassé que moi, he is as much puzzled as I am. Elle écrit aussi bien que sa sœur, she writes as well as her sister. Je parlerai aussitôt

que je pourrai, I shall set out as soon as I can.

Aussi bien (car), *for, and indeed.* Je n'irai point, aussi bien il est trop tard, I will not go, for it is too late.

Autant, *s. m.* (vent de midi) south wind.

Autant, *adv.* as much, so much, as many, so many, as. Autant que jamais, as much as ever. J'ai autant de guinées que de pistoles; I have as many guineas as pistoles; vous avez eu du bonheur, j'en aurai autant, you have had good luck, I shall have as much; vous avez trois frères, dites-vous; j'en ai autant, you have three brothers, you say, I have as many. Autant de têtes, autant d'opinions, so many men, so many minds. Je l'ai vendu tout autant, I sold it for so much. Je suis autant que vous, I am as good as you. Autant de fois qu'on le commande, as often as he is bidden. P. Autant en emporte le vent, that signifies nothing or that does not signify a pin.

Autant que j'en puis juger, as far as I can conjecture. ↪ Nous avons vu que, dans les comparaisons d'égalité, le *de* se supprime pour l'Anglois avant le substantif qui s'amène avec autant, ainsi que le *de* qui avec que introduit le substantif comme dernier membre de la comparaison; *as much, est alors pour le singulier, as many pour le pluriel, et as sert à introduire le dernier membre; nous avons encore vu que le pronom en peut tenir lieu du substantif qui, s'il étoit exprimé, se présenteroit avec de dans le dernier membre de la comparaison. Ce même pronom en pourroit de même s'introduire dans le premier membre, s'il s'agissoit de supprimer*

le substantif qui autrement devoit se présenter avec *de, à cause de l'expression de quantité autant; car en parlant de quelque chose au singulier, comme d'argent, on peut dire, j'en ai autant que lui ou qu'il en a, I have as much as he or as he has; et en parlant d'objets au pluriel, comme d'amis, on peut dire de même, j'en ai autant que lui ou qu'il en a, I have as many as he or as he has. Lorsque le mot autant signifie tout cela, toute cette quantité, tout ce nombre, ou chacun, chacune, &c. alors on emploie *so much* pour le singulier, et *so many* pour le pluriel; voilà pourquoi l'on dit, je l'ai vendu autant, I have sold it for so much; c'eût été autant d'argent d'épargné, it would have been so much more saved; ce seront autant d'amis que vous acquerez, they will be so many friends whom you shall get; quelques-uns ont cru que les étoiles fixes étoient autant de soleils, some have believed that the fixed stars were so many suns; autant en emporte le vent, that does not signify a pin. On dit proverbialement, autant de têtes, autant d'opinions, so many men, so many minds. Lorsqu'un premier membre de comparaison s'introduit avec autant que et que le second s'introduit avec autant; alors autant que se rend ordinairement par in as much; tandis que autant se rend ordinairement par in so much; *Ex.* Autant que Minerve est au-dessus de Mars, autant une valeur discrète et prévoyante surpasse (ou surpasse-t-elle) un courage bouillant & farouche, in as much as Minerva is superior to Mars, in so much does discreet and prudent valour surpass petulant and fierce courage. Autant que employé pour selon que se rend par as far as. *Ex.* Autant que j'en puis juger, as far as I can conjecture. D'autant, joint au verbe boire, se rend en Anglois par a great deal or very hard. D'autant que, en style de pratique ou de chancellerie, peut se rendre par whereas, for as much as, in as much as. Mais lorsque d'autant se trouve à la tête des expressions comparatives plus, mieux, meilleur, moins, moindre, pis, pire, on le rend par so much the, ou simplement par the, avec un comparatif Anglois, et s'il y a ensuite en François un que employé pour amener la cause ou la raison de ce qui précède, on rend ce que par as, au lieu duquel as quelques auteurs Anglois emploient because; *Ex.* je l'aime d'autant plus qu'il est très-modéré, I love him the more (or so much the more)*

as (or because) he is a very sober man. On meurt d'autant plus volontiers que l'on est homme de bien, *the better a man lives the more willingly he dies. Remarques d'ailleurs que d'autant plus que ou d'autant mieux que, dans le sens de par cette raison sur-tout que, peuvent se rendre par especially as.*

Autre, *a. other.* En voilà un, voilà l'autre, *there is one, there is the other.* L'autre jour, *the other day.* Une autre fois, *another time.* C'est un autre Alexandre, *he is another Alexander.* Quelque fois autre signifie différent; et alors on peut le rendre par *other* ou de même que l'on rendroit différent. Il est tout autre (pour un tout autre homme), *he is quite another man, he is quite a different man.* Il ne sera jamais autre qu'il a été, *he will never be different from what he has been, he will always be the same man.* On dit, il y en a d'uns et d'autres, *there are good and bad, comme dit l'autre, as the saying is, as somebody says; en voici d'un autre ou en voici bien d'un autre, this is still more surprising; il en fait bien d'autres, he does things still more surprising or that is nothing to what he commonly does; à d'autres, this may do for other people but not for me, you may talk so to other people but not to me.* L'un ou l'autre, *either, the one or the other.* L'un & l'autre, *all of them, both; l'un l'autre ou les uns les autres, one another.* Les uns & les autres, *both, the one and the other.* Ni l'un ni l'autre, *neither.*

Autres se supprime en Anglois dans les contrastes après nous, vous, eux, elles, ex. vous autres, jeunes gens, vous n'êtes jamais satisfaits; *you, young people, are never satisfied.*

Autre, après quelque, aucun, nul et tout, pris indéterminément, se rend assez souvent par *else* que l'on place non avant mais après le nom; or comme la vraie signification du mot *else* est *dismiss (ôtez) il ne faut l'employer que lorsqu'on veut faire sentir une exclusion à l'égard de la personne ou de la chose qui est*

exprimée précédemment, ou que l'on exprime immédiatement après, ou que l'on aime mieux sous-entendre. Que s'il y a un que à rendre par *but* dont la vraie signification est *but* (soit dehors, ce qui est l'équivalent de *ôtez*), alors on ne rend point autre par *else*, mais on le supprime pour éviter cette redondance vicieuse que présenterait *else but; ou bien on rend autre par else et l'on supprime le que* ainsi que le prouvent qu'il amène. Donnez-moi quelq' autre chose (ou donnez-moi autre chose dans le même sens), *give me something else.* Tout autre que lui eût perdu courage, *any body else would have been disheartened (ici he was not est sous-entendu) il aime tout autre que moi, he loves anybody but me, ou he loves me not, he loves any body else.* Il ne fait autre chose que jouer, *he does nothing but play (play, play, he does nothing else).*

Beau, a. Les anciens terminoient en el quantité de mots qui aujourd'hui se terminent en eau; l'on a cependant conservé la terminaison masculine el à l'égard des adjectifs, lorsque le substantif qu'ils precedent commence par une voyelle ou une h muette; l'on a encore conservé bel pour l'ajouter comme un surnom à certains noms de baptême; enfin le féminin de ces sortes d'adjectifs se jorme de la terminaison primitive el, en doublant la consonne l avant d'ajouter l'e muet au féminin. Un tems de l'oppression. Avoir beau, *place avant l'infinatif d'un verbe, forme en François un idiote sans toute la force duquel il est appris de bien définir*. Pour bien employer un temps personnel d'avoir beau il faut lui donner pour nominatif la personne ou la chose qui seroit naturellement le nominatif du verbe employé à l'infinatif, si ce verbe se rendoit par un temps personnel; ce que l'on peut découvrir en changeant le tems d'avoir beau en l'expression adverbiale en vain (ou quelque équivalente) avec l'addition de quelque chose, si le sens n'est pas complet. Au reste, ces tems d'avoir beau forment chacun un tour de phrase qui a une force superlative, soit à l'égard de la qualité de la personne ou de la chose, soit à l'égard de la fréquente répétition d'une action ou d'être dans une certaine situation; laquelle force superlative ne laisse pas d'être inutile parce que certaines circonstances la rendent nulle, circonstances ou que l'on sousentend ou que l'on exprime ensuite de manière que l'auditeur ou le lecteur s'aperçoit sur le champ que la conclusion ou l'inférence est différente de ce à quoi il devoit naturellement s'attendre d'après la force superlative annoncée antérieurement. Vous avez beau chasser le chagrin il revient toujours; *drive away sorrow ever so much, it will return; you may drive away sorrow as much as it is in your power, still it will return; in vain you repeatedly drive away sorrow, it will return, &c.* J'ai beau l'attendre, il ne viendra pas; *it is useless for me to wait for him, he will not come*. N. S.

Beaucoup, *adv. much*. Beaucoup (avec de avant un substantif ou lorsque le substantif se sousentend), *much* pour le singulier, *many or great many* pour le pluriel; au lieu du simple *many* avec

un pluriel on peut employer *many* a, changeant le nom pluriel en un nom singulier. Beaucoup d'argent, *much money*; beaucoup de femmes, *many women or many a woman*. Il s'en faut beaucoup que votre affaire soit achevée, *your business is far from being ended*. Il n'est pas, à beaucoup près, si beau que son frere, *he is nothing near so handsome as his brother, or he comes far short of being as handsome as his brother*.

Chez, prep. at or to the house or  
apartment of; (parmi) among,  
amongst, with. De chez, from the  
house or apartment of, from among;  
&c. Chez moi, to or at my house;  
&c. Chez lui, from his house. Chez  
les Romains, among or with the  
Romans. Avoir un chez soi, to  
have a house of one's own. Les  
Anglois se contentent souvent de  
nommer le possesseur avec l'addition  
de s. Or s (qui s'emploie lorsqu'en  
voit placer le possesseur avant la  
chose possédée) signifiant récélement  
the, il est certain que house ou  
apartment est alors sous-entendu.

Si chez mon père se rend par at  
ou to my father's house, cela est  
égal à at ou to the house of my  
father, puisque s signifie the lors-  
qu'il y a transposition. Donc, il n'y  
a rien de sous-entendu dans at ou  
to my father's house. Mais lorsque  
chez mon père se rend simplement  
par at ou to my father's (ce qui  
arrive souvent), alors il est clair que  
house ou apartment est sous-entendu.  
Il en est de même à l'égard de de-  
chez; car de chez mon père signifie  
se rendre et par from my father's  
house ou apartment, et simplement  
par from my father's, N. S.

De, *pr.p.* of, from, off, out of, in, among, on, upon, by, for, about, with, at, to, through, &c. In order to be able to determine positively the position of the preceding English prepositions should be used in

preference, one ought to consider what sense de is used in, and to know the real value of each English preposition. However as there is no word in the French language that puzzles more an English person than this word de, it is my duty to throw some light on the use of it, and to furnish the student with that clue which may lead him out of a labyrinth hitherto very intricate.

I. When two nouns come together, one of which serves to particularize the other, the particularizing one will generally come in French with de and in English with of. Le royaume d'Angleterre, the kingdom of England; un prince du sang, a prince of the blood; un homme de mérite, a man of merit. Now as the particularizing noun is the equivalent of an adjective, it often happens that the English change the French particularizing noun into an adjective: une femme de vertu, a virtuous woman; un homme de bien, a good man, a worthy man; un carrosse de louage, a hired coach, &c.

The English, for the sake of dispatch, often place the particularizing noun before the particularized one, which construction enables them to suppress the preposition (or an equivalent), which otherwise must be expressed. That construction can take place especially when the particularizing noun denotes matter, use, quality, &c.: une montre d'or, a gold watch; une mine d'argent, a silver mine; une chandelle de cire, a wax candle, &c. Observe that A bottle of wine is in French, une bouteille de vin; but A wine bottle is une bouteille au vin—the first English construction explains that quantity of wine which a bottle contains, the second explains that sort of bottles which is fit to put wine in. See also A, Observ. VII.

The French de, placed between two substantives, say Grammarians and Lexicographers, commonly causes in English the second to be in the possessive case; as in la maison de mon père, my father's house; le fils d'Alexandre, Alexander's son; le livre de Pierre, Peter's book; but they ought to have warned the student that such a construction can take place only when the second French noun is actually the owner or possessor of what the first noun means: for the construction now alluded to could not be used in the circumstances which have been noticed before; and besides that pre-

tended possessive case, traced to its origin, is not what is commonly supposed. See Salmon's first Priuciples of English Grammar.

II. It is easy for an English person to render from by de, with pretty good accuracy when he is aware of those circumstances which have been noticed at A, Obs. I. these precluding the use of de; but it is not easy for a French person to know when his de should be rendered by from. The French do can be rendered by from, only to announce the point from which a movement or change begins with an accessory idea of separation. See A, Obs. VI. VIII. Hence it is that after those expressions which denote privation, reception, extraction, separation, exemption, deliverance, derivation, emission, abstinence, deviation, wandering, distance, birth, origin, hinderance, dissuasion, banishment, or any equivalent, we generally find from (sometimes out of) in English (and de in French) with regard to the thing whence the separation arose: j'ai reçu ce matin une lettre de notre ancien ami, I received this morning a letter from our old friend; in, la réception de cette lettre m'a fait un plaisir infini, as de denotes no separation, as de cette lettre would become cette lettre in the accusative if the verb recevoir were used instead of its verbal noun réception (for, we might say, j'ai reçu cette lettre et elle m'a fait un plaisir infini) so, it must be rendered by of; and this distinction points out one grand principle, namely, A verbal noun arising from an active verb is to govern with de (of) whatever would be the accusative of the active verb. As from is sometimes to be rendered by dès, see dès; and as it is sometimes rendered by depuis. See A, Obs. VI.

III. The French de is used for the English at to announce on whom falls rallery, mockery, murmuring or any other affection of the soul, such as astonishment, &c. or to announce what occasions rallery, &c. and consequently it may present itself at the head of the cause which makes one blush, repent, rejoice, smile, &c. Il se moque de son père, he laughs at his father. Pourquoi riez-vous ce que je dis? why do you laugh at what I say? As de ce que means sometimes because, see the next observation.

IV. The French de is used to announce also that cause which in

English comes with *for* (the real meaning of which is for elliptically cause) or with *from* (the meaning of which is then elliptically original cause) or with *with* (the meaning of which is then be, let it be, with cause understood; that is to say, the full meaning of which is then and the cause of this, was or will be). Hence it is that the French say, *Il mourra de chagrin, he will die for sorrow, from sorrow, with sorrow.* When the English say, *He will die for sorrow,* they give to of the meaning of consequence elliptically for as the consequence of; that is to say, *He will die of sorrow is equal to this, He will die, and this (his death) will be the consequence of sorrow.* Hence it is that as expressions which denote some affection of the soul generally have de after them to introduce the cause of the affection, we often find de ce que when the cause is to be brought in with a verb, though generally introduced, in English, with that, elliptically equal to for this, that; or because; or the cause is this, that. *Je suis surpris de ce que vous êtes venu, I am surprised at your being come, I am surprised that you are come, I am surprised because you are come.*

V. The de which is generally used, after a passive expression, before that would be the agent of the verb if used actively, is in English generally by, sometimes of (but by is always right). Now as the English by is most times rendered into French by par, it is proper to observe here that de may be used when no part of the body is necessarily to move, or when, after verbs which suppose a motion of the body, this motion has only produced a passive condition or situation: hence par after a passive verb should hardly be used in French, except before an active agent, I mean before an agent that has some design or particular views in what is done by him: *il est estimé de tout le monde, he is esteemed by every body (instead of tout le monde l'estime, every body esteems him); elle étoit entourée de gens incommodes, she was surrounded by troublesome people.* Now elle étoit entourée par des gens incommodes, would be rendered in common translators in this same manner, she was surrounded by troublesome people, whereas the true translation ought to be, she was surrounded by designing troublesome people, or something equivalent to it. However when

the passive verb, besides its natural government, is to be followed by de, we must use par before the agent: your work has been praised in a very delicate manner by a great academicien, *voire ouvrage a été loué d'une manière fort délicate par un grand académicien.*

VI. The French du, m. de la f. (or de l' before a vowel or h mute) and des plural, all of which generally become de when an adjective is to be placed before a noun taken in a partitive sense, may be rendered into English by some (or any, according to circumstances), when only a small portion or a small number is meant, especially with an emphasis; but when there is no emphasis to be laid upon the portion or number, whether small or great, those partitive articles may be suppressed in English. Hence it is that we find *il a du vin, expressed by he has some wine, and simply by he has wine; and il a de bon vin by he has some good wine, and simply by he has good wine.*

Whenever a noun used in the partitive sense is affected by an expression which of itself requires de before what it falls upon, then, for the sake of euphony, the English some (or its equivalent any) without emphasis may be suppressed, and de alone be used; but as some (or any) with emphasis may be rendered by *quelque, quelques, un peu, un peu de, &c.* so of some (or any), &c. with emphasis, may be de *quelque, de quelques, d'un peu, d'un peu de.* Hence it is that the French say, *il nous a donné du vin for he gave us wine or he gave us some wine, without emphasis as to the small quantity; and il nous a donné un peu de vin, for he gave us some wine in the sense of he gave us a little wine; il nous a donné un verre de vin, for he gave us a glass of wine (wherein the quantity is determined by verre, glass); il nous a montré du vin, for he showed us wine or some wine; il nous a parlé de vin, for he spoke to us of wine in the sense of he spoke to us of some wine or he spoke to us of wine (indeterminately as to the quantity or sort).*

After some English expressions of quantity or number susceptible of being used adjectively the French participle de is suppressed, when the things or persons spoken of are to be introduced in an indefinite sense; but if the things or persons spoken of have a definitive signification, the French particle de cannot be suppressed. Hence, *il a beaucoup*

d'esprit, he has much wit; *il a beaucoup de l'esprit dont vous parlez, he has much of the wit of which you speak; il a beaucoup d'amis, he has many friends; il a beaucoup des amis qui vous manquent, he has many of those friends whom you have not.*

VII. The French de may be commonly used to express in before any word which implies manner. Hence, *de la manière dont il se comporte, in the manner in which he behaves; osez-vous me parler de cette manière, ou de la sorte? Dare you speak to me in that (or this) manner? De is often expressed by in when it comes in the sense of dans, pendant, durant.* Hence, *de notre temps, in our time; de jour, in the daytime; de grand matin, early in the morning.*

In speaking of dimensions, as in trois pieds de long ou trois pieds de longueur, if the adjective of dimension be used in English, de disappears; if the noun of dimension be used de is rendered by in; hence the English, three feet long or three feet in length. After a superlative expression de in the sense of dans is generally to be in; in the sense of d'entre, it may be among or of: *elle est la plus belle femme de la province, she is the handsomest woman in the county; elle est la plus belle des femmes que je connoisse, she is the handsomest of or among the women I know.*

We find that de may stand for on in speaking of sides, as in de mon côté, on my side or on my part; de part et d'autre or des deux côtés, on both sides; du côté de l'orient, on the east, or the east side, on the east parts, &c. We find also that de is generally used for the English on before an instrument of music, when the verb jouer (to play) or some equivalent, comes along with it; as in jouer de la harpe, du violon, &c. to play on the harp, on the violin, &c.

VIII. Sometimes de is not expressed in English. Some circumstances have already been made obvious, not only in the preceding observations on de, but also in the 8th observation on en, which see: the following may guide the student in regard to those phrases which may be similar to them. De, before an adjective belonging to a number of individuals expressed just before, may stand for qui est, qui soit, &c. and then it is often found suppressed in English though it might be rendered by who or which is, &c. Dans ce combat il y eut 3000 hommes de tués (qui furent

tués), in that action there were 500 men killed. In ce sot d'officier, and similar phrases, if the noun be made an English adjective, *de* will disappear; if the noun be expressed by an English noun, *de* will be rendered by *of* or *an* for the singular, and *of* or *for* for the plural; hence, that foolish officer and that fool of an officer. The reason is now obvious why mon coquin de valet may be my rascally servant. In il n'a mangé de tout le jour, il ne reviendra de dix ans, &c. *de* may disappear or be rendered by *for*; hence he has eaten nothing for this day or he has eaten nothing for this whole day; and he will not come back these ten years or he will not come back for these ten years. Sometimes *de* is prefixed to a noun without an adjective, after a tense of être, because this noun is somewhat equal to an adjective, as in il est de votre intérêt de lui plaire (il est intéressant pour vous de lui plaire), it is your interest to please him. Sometimes a noun which has *de* thus prefixed is attended with an adjective, and then both are somewhat equal to an adjective affected by an adverb: c'est de la dernière folie, it is the greatest folly, equal to, it is extremely foolish. Now I shall point out when *de* is to be used with an infinitive.

IX. *De* is to be used before an infinitive in several circumstances which I shall comprise in three articles; and in the fourth I shall mention those verbs which may be followed by an infinitive without *de*, contrary to the general rule.

1st. Whenever an infinitive is introduced instead of a noun of things which ought to take *de* before it on account of the preceding expression, this infinitive should also take *de*. Hence an infinitive governed by a preceding expression is generally to have *de*, not only when the preceding expression requires of in English before the thing it may fall upon, but in those circumstances (wherein it is to be introduced instead of a noun) which I have noticed in Obs. 2, 3, 4; I have had the honour of speaking to him, j'ai eu l'honneur de lui parler; we forewarn you to take your measures, nous vous avertissons de prendre vos mesures; I do not hinder him from coming here, je ne l'empêche pas de venir ici; I laugh at seeing him run in that manner, je ris de le voir courir de cette manière (the seeing of him run in that manner is the cause of my laugh-

ing); I am glad to find you here, je suis bien aise de vous trouver ici (the finding of you here is the cause of my being glad).

2dly. Whenever an infinitive is made to stand where a noun of things governed in the accusative should stand, that infinitive is generally to have *de* before it, though the noun ought not to take *de*, since the accusative of a thing or person is to present itself without any preposition. Hence, though we say, to forget a thing, oublier une chose; yet I have forgotten to bring my books, should be rendered by j'ai oublié d'apporter mes livres (I have forgotten what? to bring my books is the answer: therefore to bring my books stands here for the thing which I have forgotten; that is to say to bring my books stands instead of the accusative of I have forgotten). Here I must observe that a few verbs which govern the accusative of the thing, will however require à before the infinitive which they are made to govern in order to express a tendency towards doing or acquiring, &c. what the infinitive means; though we say, aimer une chose, apprendre une chose, montrer une chose, étudier une chose, chercher une chose, &c. we must say aimer à faire, apprendre à faire, montrer à faire, s'étudier à faire, chercher à faire, &c. See also hereafter, at 4thly.

3dly. Whenever an infinitive, which ought naturally to be the nominative of another verb, is placed after this other verb, because it or *ce* has been given to it as a borrowed nominative: it seems that this infinitive, thrust out of its place, is introduced as a sort of accusative case; and therefore it should take *de* according to what has been observed at the article 2dly. And yet if the same infinitive were actually used as the nominative of the other verb, it ought to present itself without any preposition. Hence it is that, it is useless to speak to me about it, is in French il est inutile de m'en parler; instead of m'en parler est inutile, the equivalent of to speak to me about it is useless. The first construction is that which suits best the French genius, which likes to make every thing appear in a sort of active form. See A, Obs. II.

4thly. Certain French verbs which govern the thing in the accusative, will have the infinitive they govern (instead of that accusative) present itself barely without any preposition: such are, affirmer,

Some of these will however be sometimes followed by *de* and an infinitive, as désirer, souhaiter, dire, &c. Il désire ou souhaite de vous voir, he wishes to see you; dites-leur de venir, bid them come; je viens de lui parler, I have just spoken to him; il ne fait que d'arriver, he is but just arrived. N. En is sometimes a preposition and sometimes a pronoun. When a preposition, it chiefly means in, into, to, &c. When a pronoun, it chiefly means of him, of her, of it, of them, from him, &c. As the proper use of the word en has been but indifferently pointed out, the following observations will be of service to the student. The pronoun en shall be explained in the last.

I. To express those progressive successions which in English are presented with from and then to, we are to use en for to, provided we repeat the word; but if autre is to be introduced instead of repeating the word. Hence, de temps en temps or de temps à autre ar

A'un temps à l'autre, from time to time; de ville en ville or d'une ville à l'autre, from town to town. De deux en deux jours, every other day.

II. In speaking of time, en denotes that length of time which the doing of a thing will take up, and dans expresses the time after the expiration of which the thing is to begin or to take place. Il va à Windsor en deux heures, he is two hours going to Windsor. Il va à Windsor dans deux heures, two hours hence he is to go to Windsor. Many a good writer is not sufficiently aware of this distinction.

En is also used for pendant when we speak in an indeterminate sense. En hiver, in winter or in winter time, &c. In the spring may however be au printemps or dans le printemps; and in the beginning of may be either au commencement de or dans le commencement de.

III. With respect to countries and provinces introduced barely each with its name, en will do if we speak indifferently of somewhere in or into; but dans should be used if we mean the whole, as well as if the word be determined and particularized by some other word. Etre en France, to be in France. Aller en France, to go into France or to go to France. Au lieu de en Angleterre, on dit quelquefois dans la Grande Bretagne, pour exprimer in ou into dans le sens de within.

When the name of a Country or Island proves to be one of those which have been discovered by Christopher Columbus, and other adventurers, we generally use au, à la, aux, instead of en, as we use du, de la, des, instead of de. He has been in Mexico and Jamaica, il a été au Mexique et à la Jamaïque.

IV. As to a city, town, village, &c. à is used instead of en if we speak indifferently of living in or being in some part of it; but dans if we mean the whole or wish to represent the place as containing. Il demeure à Paris, he lives at or in Paris. Il y a plus d'un million d'ames dans Paris, there are above a million of people in Paris. Mon père est en ville means my father is not at home (but gone some where in town); whereas Mon père est à la ville means my father is in town (not in the country). We say en haut, above; en bas, below, down; en dedans, within side; en dehors, without side, &c. d'en haut, of or from above, &c.

V. After an expression which denotes change, en (into) is to be

used instead of dans, even though the noun should be made defined. Elle fut métamorphosée en la rivière que vous voyez couler, she was metamorphosed into the river which you see flow along.

After any verb which means to consist, we use en with the nouns taken indifferently, dans before nouns properly defined, and à before infinitives; whether the preposition be in English in or of.

VI. En or dans are almost indifferently used before tout, pronouns, adjectives of number (followed by any noun not of time), indefinite articles, demonstrative and possessive adjectives; yet when we speak of a place whereunto we put something dans is better. Mettez cet argent dans votre poche, put this money into your pocket. We say en mon particulier, for my part; en tout, in all, &c.

VII. In most other circumstances, en, denoting an indeterminate sense, is proper when the noun is not particularized or has not been so; and dans must be used to denote that the noun to which it is prefixed is employed in a precise and determinate sense or represented as something which contains. Il est en prison, he is in jail or in a jail (which jail he is in is matter of indifference left out of the question). Il est dans la prison, would imply that the kind of jail is sufficiently known. Hence He is in Clerkenwell jail, il est dans la prison de Clerkenwell.

We say En vertu de for by virtue of; and en robe de chambre, &c. for in a night gown, &c.

En is often equal to like, like a, like an, after the manner of, &c. hence, agir en roi, to act like a king; ils se comportent en gens d'esprit, they behave like people of sense.

VIII. En is the only French preposition which can be used before a participle present (it is even suppressed when the participle present is compound), to express in, by, with, on, upon, &c. and even while he, &c. when he, &c. as he, &c. This preposition serves then to form a detached or incidental phrase, that is to say, to express interjectively or explanatorily the circumstances of an action, &c. pointing out either the time when it happened or the manner in which it took place or the means used to make it happen. L'homme vertueux ne cesse de faire du bien qu'en mourant, a virtuous man leaves off doing good only when he dies. Parlez-lui en passant, speak to him as you go

by (en passant is also used to express by the by). Il me dit, en partant, que, &c. he told me, as he set out, that, &c. On a guéri un prince de cette maladie en lui faisant prendre tous les jours deux cuillerées de vin d'Espagne, a prince was cured of that disorder by making him drink every day two spoonfuls of Spanish wine.

N. B. En prefixed to a participle present may generally serve to express those actions which are introduced in the sense of at the same time that I (thou, he, she, it, we, you, they), or of and meanwhile, &c. Blandford enriched himself in doing his duty (while he did, at the same time that he did, and at the same time he did, his duty), *Blandford s'enrichit en faisant son devoir.*

IX. The pronoun en is the representative of any noun which (if expressed instead of en) would have de prefixed to it, or some other word equivalent to de, as touchant, &c. and here it is proper to refer the student to the observations made on de. He will then understand that en may mean not only of him, of her, of it, of them, of the action, &c. from him, from her, from it, from them, thence, hence, from the action, &c. of or from me, of or from thee, of or from us, of or from you; but also speaking of instruments not musical with it, with them, of musical instruments on it, on them; and to express the cause at it, at them, at the action, &c. for it, for them, for the action, &c. and even at me, &c. He will be able to understand that en with a passive expression may stand for by him, by her, by it, by them, and even by me, &c. and that with regard to quantity or number, it may be for some or any to denote an indeterminate portion of what has already been mentioned; and in this place I shall observe that en may serve to avoid repeating a noun (which indeed is often left understood in English) after a numerical adjective; as in *N'a-t-il pas quatre frères? Il en avoit quatre; mais il n'en a plus que deux, has he not four brothers? he had four (brothers are understood); but he has now only two (still, brothers are understood).*

Sometimes en is an energetic pronoun, the force of which seems to be lost in English; for instance, in such comparative phrases as this. Il en est des héros comme des autres hommes, it is with heroes as with other men. En vouloir à quelqu'un, to have a grudge against

one, owe one a spite. J'en suis là, that is my case, that is my temper, as well as I left off there. J'en tiens, I am caught. N. S.

banqueroute) to fail, break. Faillir à faire ou faillir de faire (penser faire, manquer de faire) to be very near doing. Il ne s'emploie guère qu'aux temps passés. Er. Je faillis à tomber ou je faillis de tomber, I was like to fall, I was very near falling; il a failli à vous nommer, he was very near naming you, a little more and he had named you. As this verb is il faut in the 3d person singular of the present Indicative, and il faut is also the 3d person singular of the present Indicative of falloir, which likewise denotes want, many have thought that in such expressions as these, il lui faut deux paires de bas, he or she wants two pairs of stockings, il faut should be considered as from falloir; but as in the Imperfect we say, il lui falloit deux paires de bas, and not il lui faut deux paires de bas, it is evident that il faut in the above phrase must be from falloir. It is the same with peu s'en faut, il s'en faut bien or beaucoup, tant s'en faut, &c. since the imperfect is peu s'en falloit, &c. N. S. Le cœur me fait, my heart fails me, I faint. Combien faites-vous ce drap? *how much do you ask for that cloth? what will you sell it for?* Je n'en veux pas faire pour si peu, *I will not sell so little of it*. Je n'y saurois que faire, *I cannot help it*. Faire (être), *to be*. Cela fait toutes mes délices, *that is all my delight*. Cela ne fait rien à notre propos, *that is nothing or signifies nothing to our purpose*. On le faisoit mort, *it was reported that he was dead*. Il tâche de vous faire quelque argent, *he endeavours to get or raise some money for you*. C'est à faire à un poltron de fuir, *it is for cowardly people to run away*. Avoir à faire à quelqu'un, *to have business with one, have to do with him*. J'en ai à faire (affaire ou besoin), *I have need of or occasion for it, I want it*. Faire (partant de certaine quantité de chemin), *to go, walk, ride, &c.* J'ai déjà fait trois lieues, *I have already walked three leagues* (rode ferait entendre à cheval ou en voiture). Pour marquer un changement de condition, &c. avec faire, le nom primitif prend quelquefois de, et le second devient l'accusatif de faire; Ex. faire d'un prêtre un général, *to turn a priest into a general*; faire d'une mouche un éléphant, *to turn a fly into an elephant*, that is to say, *to make a fly appear like an elephant*. Faire avant un infinitif se supprime quelquefois en Anglois. Il fait bâtir une maison superbe, *he builds or is building a most elegant house*, ce qui est l'équivalent de *he causes a most elegant house to be built*. Dans les autres circonstances faire avant un infinitif peut se rendre par *to cause, changeant l'infinitif suivant qui paroit actif en un infinitif passif* (si le verbe peut réellement être actif, car un verbe neutre ne pourroit devenir

passif) et placant après *to cause* ce qui paroit être l'accusatif de l'infinitif; ou bien faire peut se rendre par *to make*, qui n'exige pas que l'infinitif suivant devienne passif. Faire chanter quelqu'un, *to make one sing*; faire chanter une hymne à quelqu'un, *to make one sing a hymn, to cause a hymn to be sung by one*. V. A. Obs. 1. et Rélléchi. On dit d'ailleurs faire faire, *to bespeak, get made, cause to be made*; faire savoir, *to let know, send word of, give an account of, give to understand*; faire dire, *to send word of, cause to be told*; faire venir, *to call or send for, bring, cause to come*; faire entrer, *to call in, let in, introduce, drive into*; faire sortir, *to call out, drive out, take out*; faire sortir par force, *to force or drive out*; faire prêter serment à quelqu'un, *to tender the oath to one, put one to his oath*; faire voir, *to show, cause to be seen*; faire observer, *to cause to be observed*. Ne faire que avant un infinitif signifie *to do nothing but*; et ne faire que de signifie alors *to have but just or to be but just*. Ex. Elle ne fait que rire, *she does nothing but laugh*; il ne fait que de sortir, *he is but just gone out*; il ne fait que de commencer, *he has but just begun*. N. S. Faire, v. n. (être convenable) *to look fit*; (faire les cartes) *to deal*. En parlant de la température de l'air, de son effet sur nous ou sur les chemins, les rues, le paré, &c. les François emploient souvent il fait, il faisoit, &c. Voilà pourquoi l'on entend dire: Il fait mauvais ou mauvais temps (le temps est mauvais), *it is bad weather*; il fait crotté (les rues sont crottées, les chemins sont crottés), *it is dirty*; il fait propre dans les rues (les rues sont propres), *the streets are clean*; il fait chaud (l'air est chaud), *it is warm weather*; il fait jour (il est jour), *it is day light*; il se fait jour, *it draws towards day light, day light comes on*; il fait nuit (il est nuit), *it is night*; il se fait nuit, *it draws towards night, night comes on*; il fait noir ou obscur, sombre ou triste, *it is dark or gloomy weather*; il fait brouillard, *it is foggy weather*; il fait clair de lune (la lune luit), *the moon shines*; il fait du tonnerre (il tonne), *it thunders*; il fait des éclairs (il éclaire), *it lightens*; il fait du vent (il vente), *the wind blows*; il fait des tempêtes horribles sur ces côtes-là, there are dreadful storms upon those coasts. Fait il jour chez Mr. A.? *is Mr. A. up?* Il ne fait pas encore

jour chez Madame B. Mrs. B. is not yet up or to be seen. En parlant de la nature, condition, ou disposition, ainsi que des qualités de certains endroits à l'égard de la cherté des denrées ou de la sureté des individus, les François se servent quelquefois de il fait, il faisoit, &c. Ex. Il fait cher vivre dans cet endroit, d'ailleurs il n'y fait pas sûr.—Ne fait il pas meilleur en Hollande?—Il y fait bon, mais pas si bon qu'ici, *it is dear living in that place; besides, one is not safe there.—Is not Holland better?—It is a good country, but not so good as this part of the world*. Il faisoit chaud dans ce combat, *that was a warm fight*. C'est par la même raison que l'on dit, il fait dangereux de se jouer à son maître, *it is dangerous to meddle with one's master, &c.* Faire, employé au lieu de la répétition d'un verbe, se rend par *to do, ou par to be, &c.* selon la manière dont le premier verbe s'est introduit; il étudie mieux qu'il ne faisoit, *he studies better than he did or used to do*; il fait plus froid qu'il ne faisoit hier, *it is colder than it was yesterday or than yesterday*; car on peut supprimer ce faire relatif lorsque quelque circonstance annonce suffisamment un temps antérieur ou à venir. N. S. Se faire, v. r. *to be doing, be making, be growing, be improving, be getting, &c.* also to be used, *to be done, &c.* (devenir) *to become, turn*; (s'accoutumer) *to grow used or accustomed, make one's self used or accustomed, imure one's self*. ‡ Fallace, s. f. (terme de philosophie) fallacy.

‡ Fallacieusement, adv. fallaciously.

‡ Fallacieux, se, a. fallacious, captious.

Falloir, to be requisite or necessary or needful or wanting. This verb can be used only with the borrowed nominative il, which so often

proves that the French language has an antipathy to whatever is either neuter or passive. Now il faut, il falloit, il fallut, il faudra, &c. are proper to express what we are obliged to do, be or have, through complaisance or custom, as well as what personal interest bids us do, be or have, and what us should be right in doing; as also what, from circumstances, we conjecture must be or take place. See the observations hereafter. Comme il faut, as should be, as it ought to be, as you ought, &c. and sometimes soundly, handsomely; vous faites ce qu'il faut, you do what should be done, you do what is right. Combien vous faut-il (ou que vous faut-il) pour cela? what must you have (what do you ask) for that? Il ne faut que cela pour ou il ne faut pas davantage pour, that is enough (or sufficient, &c.) for. Plus qu'il ne faut, more than is required (sufficient, needful, wanting, &c.). C'est un faire le faut, there is an absolute necessity for it, that is a forced put. Si faut-il que, yet it is necessary that. Combien s'en faut-il? how much is wanting? il s'en faut de trois pouces, there are three inches wanting; ou peu s'en faut, or very near the matter. See Obs. VI. see also Faillir. Now the Editor pre-

sumes that the following observations

will prove useful.

I. In speaking indeterminately as to the person or persons who, and even thing or things which, must do or be or hate, il faut, il falloit, il fallut, &c. may be used before the thing wanted (without any verb to express have) as well as before an infinitive. One (people) must have money to go to law, il faut de l'argent pour plaider. Money must be had to carry on this war, il faut de l'argent pour continuer cette guerre. One (people) must study in order to learn a language, il faut étudier pour apprendre une langue. See the following observation.

II. When, wishing to speak in a particular and determined sense, we choose to name or point out the person or persons who, or the thing or things which, must do or be or hate; then, we may use il faut, il falloit, &c. before that thing wanted (without any verb to express have), observing that the person or persons &c. should then be considered as affected by (à): but if a verb is to be expressed to point out what is wanted, we should use il faut que, il falloit que, &c. making the nominative of must become the nominative of the other verb to be in the subjunctive; hence it is obvious that any sentence which conveys an idea of something wanted should be so turned as to introduce must; your brother wants (or must have) a horse, il faut un cheval à votre frère; he must also have a saddle, il lui faut aussi une selle; the garden must have more width, il faut plus de largeur au jardin; she must write a letter to them, il faut qu'elle leur écrive une lettre; the garden must be wider, il faut que le jardin soit plus large. If, when speaking indeterminately as to the person or persons, we choose to use the indefinite pronoun on, as a nominative to the verb affected by must or any equivalent, it is obvious that il faut que, &c. may be introduced, as in Il faut qu'on soit fou pour agir autrement, il faut qu'on étudie pour apprendre une langue. See the examples above in Obs. I.

III. Sometimes, although the person or persons be determined in English, il faut may be used with the infinitive instead of il faut que with the subjunctive; but then the person or persons should appear fully determined either before or after, as in you must not give yourself so much trouble, il ne faut pas vous donner tant de peine. If I refuse to see him. to-day, I

must receive him to-morrow, si jack-an-apes. je refuse de le voir aujourd'hui, il faudra le recevoir demain. You ate a child, said Blanford to her, dit Blanford, il falloit me tout the whole, vous étiez une enfant, lui dit Blanford, il falloit me tout atouer.

IV. Sometimes, instead of il faut que je, &c. with the subjunctive, we use il faut with the infinitive, and consider the person or persons as affected by (à); but this construction can take place only when a pronoun is to stand instead of the person or persons. They have been obliged to confess the whole, il leur a fallu tout avouer.

V. Il faut (il falloit, &c.) before voir, entendre, &c. may as well as il tait beau (il faisait beau, &c.) mean it is (it was, &c.) fine diversion or fun; it gives (gave, &c.) one pleasure, &c. Il ne m'échappoit pas un mot qu'ils ne le relevassent comme un trait admirable; et il falloit voir l'attention qu'ils avoient tous deux à me présenter de tous les mets, I did not drop one word 'ut they took it up as an admirable stroke, and it was entertaining; to see how attentive they were both of them in offering me of every dish.

VI. S'en falloir requires also particular attention. As it intimates of itself a deficiency, so on account of its negative signification, it requires the subjunctive in the verb of the action or situation which does not take place on account of that deficiency. Now if s'en falloir be presented with a full negative, or in a manner equivalent to a negative form, as with peu or with an interrogation, the deficiency is removed or partly removed or becomes doubtful, and therefore ne should be prefixed to the subjunctive in order to bring back an affirmation or an approximation to it. From this explanation and the phrases mentioned before the Observations, it is presumed that the full force of s'en falloir will easily be recognized in the following phrases: Tant s'en faut que je le chérissse, qu'au contraire je le hais mortellement, far from loving him, I mortally hate him. Il s'en faut bien (beaucoup ou de beaucoup) qu'il me plaise, he is far from pleasing me, he does not please me by a great deal. Peu s'en fallut (il s'en fallut peu, il ne s'en fallut guère, il ne s'en fallut de rien) que je ne tombasse, I was very near falling, a little more and I had fallen. N. S.

 église, churchmen, clergymen;  
 gens d'affaires, people of business;  
 gens de guerre, soldiers; gens de  
 mer, sea-faring people. *V.* Gent.  
 N. B. Though gens be mas-  
 culine of itself, yet the adjective be-  
 longing to it, if not ending with e  
 mute in the masculine, is to be made  
 feminine, when to be placed im-  
 mediately before gens; observe how-  
 ever with regard to tout, that, if  
 placed before les gens simply, it is  
 to be tous; and also when an ad-  
 jective ending with e mute in the  
 masculine is to be between les and  
 gens; but that as any other adject-

rice immediately before gens must be made feminine, so toutes must also be used before les instead of tous. A following relative pronoun or adjective is notwithstanding to be in the masculine. Hence, tous les gens, all people, every body; tous les honnêtes gens, all honest people, every honest person; toutes les bonnes gens, all good people, every good person; de telles gens, such people; divers gens, several people; plusieurs gens, several persons; ne vous familiarisez pas avec les petites gens, do not get familiar with the low sort of people, they would soon insult you; la plupart des vieilles gens que vous avez connus étoient soupçonneux, the generality of those old people whom you have known were suspicious. When the adjective is to be placed after gens, it must of course be masculine. Ce sont des gens fort dangereux, they are very dangerous people.

On s'en sert surtout pour éviter la forme passive.

V. Réhéchi. Puis que On (ou l'on) exprime quelqu'un d'une manière indéterminée, il ne peut avoir qu'une expression indéterminée pour le représenter, soit à l'accusatif soit à un cas oblique (c'est à dire, avec une préposition), soit à un cas redondant; tels sont ces pronoms se, soi, soi-même (en Anglois, one's self); tel est cet adjectif, son, sa, ses (en Anglois, one's).

Ex. On dit, people say, they say, it is said. On lui parle, somebody speaks to him (or to her), he (or she) is spoken to. Qu'en dira-t-on? What will the world say about it? Se moquer du qu'on dira-t-on, être au dessus du qu'en dira-t-on, not to care what the world will say. On dit et l'on assure que, people say and assure that. On ne me persuadera jamais le contraire, nobody will ever persuade me to the contrary. Quand on s'est écarté du sentier de la vertu, on doit

tâcher d'y rentrer, when one has deviated from the path of virtue, he (or she) ought to endeavour to get into it again. On à souvent besoin d'un plus petit que soi, one has often need of his inferior's assistance. On peut être belle, et, par son affectation, se faire mépriser, a woman may be handsome, and yet make herself despised through her affectation.
