Dr. Pluton's Royal Weather Course.

I have been induced to make a few observations on what has occurred in the garden since the last report. I have been very much impressed by the beauty of the plants in the greenhouse, and I am sure that they will continue to grow and thrive in the coming months.

The gardeners have been working hard to prepare the soil for the new season. They have been digging and pruning the plants, and I am sure that the results will be excellent. I am looking forward to seeing the plants in their full glory.

I am also interested in the wildlife in the garden. I have noticed a large number of birds and butterflies, and I am sure that they will continue to thrive in the coming months.
