Dear Grand

I willingly send you  
the few letters which I  
have, & though I treasure  
them very highly myself I  
fear they will not be  
available for a biography.

I most earnestly hope  
that one of you will  
let about a biography  
soon. It is my <sup>very</sup> wish  
that it should be  
brought out without  
any great delay.  
I will say ad that

I have no objection to  
any part of the letters I  
am sending being published if  
you think that they can  
come into a biography.

I presume you will not mind

me mentioning that, to

at least of the letters &c.

If however any mention is

made of the incident in

the biography I have got some

Further letters of Kromer re  
the subject

Yours are

F. de Balfour
