

[The cover was not microfilmed]

"The first paper contributed by him, entitled 'On the Ova of the
Stomoxys', in which he announces that he has discovered organs of motion,
 and, especially, that the small black body which is mistaken for the young of
Stomoxys is in reality the ovum of *Forcipoda muricata*, exhibits his
 early habits of accurate investigation."

C. Davis

Rev. Sec. of R. Thimian Soc. of
 Cambridge; Nature Nov. 20
 1879. p. 38.

By post from 2^o Jan in Boston

1809 Feb 12. Born at Housatonic
Parish of N. Chat

1813 summer. Went to Gros Chen
Abegale for sea-bathing, & one
of my earliest recollections
dates from this.

1817. Went to Mr. Case's school
in the spring (8 years old)

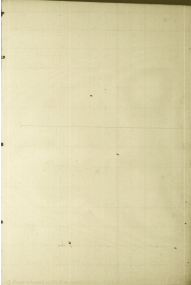

— July my mother died.

1818 ^{July} Went with Erasmus on
party of pleasure to Liverpool.
X Midsummer. - Went to Dr. Bell's shop

- September. Ill with smallpox.

1819 July. Went to see J. Elms
& Dr. Bell. & stayed there three
weeks.

1820 July. Went to see with
Erasmus & Pidd. Rhagades -
on horseback

1812 June. I am with Caroline &
Danton. -

July - to Montgomery & Bishop's
castle with Elizabeth.

September. - To Dr W. Cotton.

1814 November. - Marianne was
married to D. Parker

1816 June 17th. Left Shrewsbury
school for ever. - 16 Jan. 18

- October. Went with Emma &
X. Faintly, -

My first recollection of having some pleasure
in scenery etc. as far back as this

13 years old.

- 1826 June 15. Walking tour with
 North Wales with B. Henry
 — Oct 20. Riding tour with
 Caroline Paget Park. Bala &
 — November 6. Went to Edinburgh
 & myself
 1827 In Spring went to Dublin & Portman,
 & then to London & Paris with Lady
 1827. In the Autumn paid many
 visits to Woodhouse
 — September. Dined in J. Mackintosh
 — Christmas. Went to Cambridge
 1828 Summer. Went to Bournemouth
 with Herbert & P. H. to read
 with B. H. H. H.

The first paper contributed by him, entitled "On the life of the Flea," in which he announced that he had discovered organs of motion, and, secondly, that the small black lady kills her children for the young of Fleas, have in its reality the story of *Phaenocarpa apertus*, published by early letters of minute investigation. (See *Journal of Plinian Soc.*)
 A thorough and accurate study of the Flea, during the long years appears to have made considerable progress. On the 14th December 1888 the first *Phaenocarpa* was sent to him, of the place supposed to be near to the
 Plate 1. *Phaenocarpa*
 from east of the
 at about 1888
 it was - 1888
 from Plinian
 Soc. at (London)
 it was first
 sent to him
 on the 14th of

TRANS. ENT. SOC. VOL. XL.

1876 }
 1877 } winter. *Phaenocarpa* *marina*

and note on shore of Firth of Forth
 with Dr. Grant & C. B. Thomas.
 In Spring and Summer. *Phaenocarpa* *marina*
 Hatching. After winter Glasgow Belfast
 Dublin. - New London. Paris. -

1878 }
 1879 } *Phaenocarpa* *marina* with Fox & Wey
 and continued *Phaenocarpa*

1878. Very few in *Phaenocarpa* *marina*
 in the Spring of Cambridge & at Bournemouth
 in the Autumn.

1828. Sept. Messrs. & Thence to
Boston for Miss. Meeting.

1829. Summer. Paid Barnath
& visit. —

— Oct. 1829. Birmingham. Miss
Meeting with Wedgwood.

1830. Christman's lecture given
at Cambridge (?)

1830 - continued to collect insects;
to hunt, shoot & be quite
idle.

1831. Christmas paper by examination
for B.A. degree. & kept
the two following terms.

— August. Went on physical tour
by Haystack. Ranthorn. Corning. Bergen
— Kept Corning where I left the ^{Suburbs} Puffin
& crossed the mountains to Barrett.

Returned to Newbury at end of
August. — Kept the office of Magistrate
— Sept. Went to Mass. — returned
with the Judge to Newbury. — Then
to Cambridge. — India.

— Sept. 11. Went with Capt. Fabyan in
steamboat to Plymouth to see the
People.

— 11th returned to Newbury. — before
went to Cambridge.

During these months lived much
with Prof. Bowler. After living with
him, & walking with him, became slightly
acquainted with several of the learned
men in Cambridge, which much
enriched the little year, which
summer parties & hunting had not
destroyed. - In the Spring, paid Mr.
Dane, a visit with Keating.
Kirk, ~~Keating~~, & talked over an
evening to Sonville. -

In the Spring, Bowler presented me
to the friends of Gedge & introduced
me to Ledyard. - During midsummer
gaddied a little in Regent's

1831 Oct 1st Took leave of my home
staid in Labor.

— Oct 24th Reached Plymouth

— December 10th Sailed. At
New Mass. to put back

— 21st Put to sea
again & was driven back

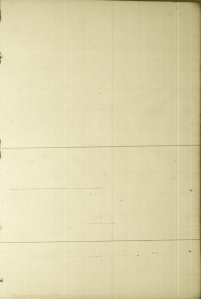

— 27th Sailed from
England on our
circumnavigation. —

October & November. Rose Math.
very miserable. —

1832. Jan. 18th First landed on a
tropical shore St. George
Feb 29th Landed at Brazil
Dec 3rd. ——— Tierra del Fuego

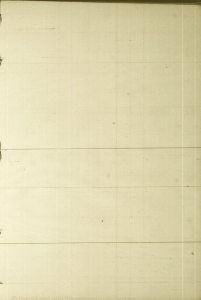

1833 Dec 6th Sailed for last
time from Rio Plata

1834 June 10th Sailed for last time
from Tierra del Fuego

1835 Sept. 5th Sailed from ^{west} shore
of South America

1836 May 31. Anchored at the
Cape of Good Hope

X

1836 Octbr 2^d. Anchored at Falmouth.

Oct. — 4th Reached Shrewsbury after
absence of 5 years & 2 days.

Oct. — 14th London

— 15th Cambridge

— 20th London

— 28th Boyle arrived & lodged. was paid

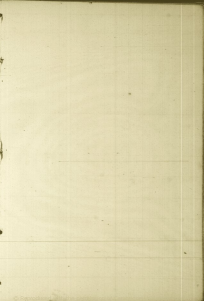

off. November 17th —

Novbr 18th Home

— 16th Shrewsbury

December 2^d London

— 13th Cambridge

1837

Jan: Cambridge - time spent in
arranging general collection: exam-
ining minerals, reading, & writing
little journal in the evenings.

Paid two short visits to London.
- & was present at a dinner & concert of dilett.

March 6th Left Cambridge & visited a friend

- 13th entered my lodging in 36
St. Mark Lane St. -

June 26th Short visit to Brunswick.

Sept 26th Brunswick - returned by
train & reached London Oct. 21st

Oct 21st London

Nov. 20th Two days Isle of Wight &
see Fox. -

In July opened first note book on transcripts
of species. - Had been nearly blank for
about month of previous March. On character
of L. American fossils - a series on
Pachydictya and Dictyodonta. - Then further progress
examining letters of other my views.

From March 13th to end of September
entirely employed in my journal.

{ Aug. paper on Cor. formation & Dicty. loc.
on deposits in Europe

October - November. - preparing
volume of Zoology of Egypt & Egypt.
continued geology. & finished
proofs of Journal. - Then on
worms, fossils, etc.

1838

Jan: 17th I finished my account of the
Geology of the Galapagos Arch. & of Ecuador.

Feb. 25 - finished St. Helena in
North in Atlantic: Also
perused much about "Exposition
of Spain" & read Mac the world.

March: - Part. Mammals in Geology.

Paper on earthquakes for July br.

April. Part. Birds for Geology: much
time thus lost.

— 16th. Began Geol. Cap & foot
Hops. King George Sound. 18 May.

May. - 1st Russell, working at Geol.
on "Horn" & "Species". -

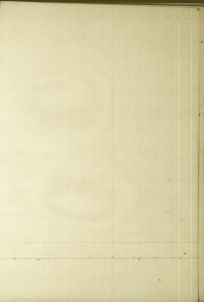

1838

May 10th Went to Cambridge 14 days
— 15th Begun study of Black Lairs
in New Zealand

— 22nd Begun study of St. Jago
Cape de Verde

June 1st (beginning) : Begun 1st Part of
Birds - St Jago study - some
little games theory, & lost very
much time by being unwell. -

— 23rd Started in steam boat to
Edinburgh (the day following) -
spent eight good days in studying
whereas I am through Greenwich
& Liverpool, slept at Orator

1838 * reached Bremen by July 12th.

July 29th Sat at far Trace.

August 1st London. Began paper
on Glen Roz & finished it

Sept 6th Finished paper & Rev.

Reg - one of the most difficult
circumstances I was ever in

length in

Sept. 14th. Written ^{fuging days} down page one of a book,
on Transmutation theories & history for
Bayer notes of Heretics theory.

Oct 5th Began Colch Paper: repairs
Much reading

25th Went to Windsor for the dogs

14th - glorious weather. - Delightful

Very idle at Newbury, some notes
from my Father. ^{2d} a good book, connected
with metaphysical inquiries.

August. Read a good deal of
various anatomy books, & paid
some attention to metaphysical subjects.
All September read a good deal
on many subjects; thought much upon
religion. - Biography of Father &c.

1834

Preface & Address on Henry
of Emile Martin & Journal
Records of Studies for Mass.

— 11th Sunday. The day of Days!

Went to Strawberry next day
return to Mass on the 17th.

— to London on the 20th —

December 6th. Emma came up to

Iron:—most fortunately for me.

December 21st Emma went to Mass

December 31st Entered 12 Upper

Iron 11th —

Last 8, 9, 8th of November
Wanted out of the last week
of November. - Beginning of December
present number of Birds. From 6th
to 21st busy about house &
domestic concerns. - To the
end of year: House hunting,
heat a little, & with
sometimes of busy work. -

1839 X

Jan 11th. Went to Shrewsbury.

15th Went to Maer

18th London

25th Shrewsbury

28th Maer

29th Married & returned to London

Feb 7th. Recommended Local Paper -

Jan 1st / February a full week in hand
of the paper, then a week
more in June & the Local Paper

April 26th Went to Maer

May 13th to Shrewsbury

— 20th to London.

Aug 23rd to Maer & thence on the

26th to Birmingham for the meeting of
the Assoc. Gen.

First week January collecting
Glen Az. P. 200. - Did
nothing during the rest
of month.

Feb. 8th. Began German.

End of March a week at April
Cook Paper. -

March visit some reading
connected with species, but did
very little on account of being
unwell.

May 20th to July 30th. Trip for Cordill-

- Ornithological part of Beagle's Voyage.

Lost some time unwell - read letters

for species: to end of 23rd of

Aug. - cord - my. a Horticult. I have

1839
Sept. 12th to Haverbury & staid there
ten days.

Oct. 2^d. Arrived in London.

Decent 27th a big bon at $\frac{1}{2}$ past

9. A. M.

During my visit to Iran, read a
little, was much unwell &
suffering from - I have done
this much good. that nothing is
so intolerable as idleness. -

The last week corrected English
pages. - Pages of 10th. correcting
to - Ornithology. - Oct 10th

Memoranda coral paper

December 24th. became unwell, with
the weight of this or two days passed
so like the 24th of February.

In the interval read a little
for Improvement - they, but otherwise
lost three whole months.

1840

Again became unwell & had not
commence ^{last summer} till had 26th

April 3rd went to Shrewsbury for
a week by myself.

Had last summer

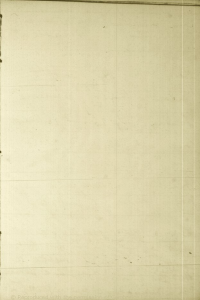

June 10. Went to Maer & paid
visit to Shrewsbury.

Aug. 4. Taken ill.

Nov. 12. came up to London.

During this summer when
well enough did a good
deal of species work.

Dec 15th. Commenced last winter
of Butter for Folio of Beagle's Eggs
Jan 12. Feb. 20th. 1841. - commenced

March 2^d. 1841 Anne
Born. —

Ready on Spring & last she lost
5 1/2 lbs. —

1842

May 18th. Went to Macer. June 15th to
Shrewsbury; & on 18th to Acad. Univ., Bangor.
Carrianna to Acad. Univ.; attempted the dogs,
examining glacier action. During my
stay at Macer & Shrewsbury, ^{5 years of the last} with pencil
sketch of my species things. - July

18th returned to London
Wrote paper on ^{glacier action} glaciers - ~~employed~~
about 1000. - Emma came to

Down. September 14th. & I followed
on 17th. - Mary Eleanor Sept
23rd born. - Mr. Viller 16th.

October 14th began on Wharfedale
in boats - to Skipton & Keareway
Cragg on S. -

1842. Sept. 14. can 6
Iron.

1843. July 8th to March & Thursday for a week

July 12. J. W. St. 22 pages

Travels to this did little for building;
except some species work, & return to
volcanic islands on my return.

October 12th to Thursday for 12 days.

Paper on Lepidoptera & on seeds, number 1.

1844. Jan 5th sent M. S. of botany.

Went to Puncheon. Feb 13th finished.

In intervals a period of ^{daily sketches} copied & improved
pencil sketches ^{in 35 pages with a return form} of Species Theory.

April 23rd to March & Thursday; returned May 30th

July 8th. Sent a written sketch of genus

May ^(from your letter concerning) sent 250 pages to St. Hatcher
to be copied. Number 1, last work in Sept.

Paper on Atlantic Coast: on Planaria
Series of collection.

July 27th 1844 - Paper S. americana

September 25th Henrietta Laura D. born.

1843 July 11th by Josiah Wedgwood
died. —

Eighteen months at Henrietta's Bed

October 18th to 29th at Shrewsbury.

1845.

April 24th. Finished first time over
S. America. - (9 vols.)

April 25 Began 2^d Edit of Journal.

August 25th. Finished - 2^d - (9 vols.)
Rested idle for a fortnight.

Oct. 29th. Resumed July. of S. America

4000 copies of 2^d Edit of Journal
sold at Jan 1. 1847

1845

~~Went to Shrewsbury for a visit~~
April 29th to Shrewsbury, returned
on May 10th -

~~George Howard born July 9.~~
Sept 15th to Shrewsbury; Lincoln;

York; & Dean; Mendon; Waterbury;

Chatham; Coey. Hill; returned ^{home} Oct. 26th.

1846 - Feb. 21 to Shrewsbury; Mendon; home.

July 31 to Shrewsbury; home Aug. 9th.

1846. Oct 1st finished last proof
of my Geology. Observ. on I. America.
This volume, including Paper on
Geology. Journal on the Falkland
Islands took me 18 $\frac{1}{2}$ months:
th. L. S. however, was not so rapid
as in case of Polynesian Islands.
So that my Geology has taken me
4 $\frac{1}{2}$ years: as it is 10 years since
my return to England. How much time
lost & ill-used!

Oct 8. Paper on new Balanus in the volume
on Geology in London. During the winter
& winter here a son by name
November, December Comica &
Megascops

1846

Feb 21st to Slieve Donard. March 3rd Home

July 21st to Do Aug 9th Home

September 9th ^{with same} to Brit before at Latherston, on

the 12th to Putnamth a coast of hills of height

on 13th to Uichata a S. bog. on 14th to the

Abbey & Latherston corner. 17th Home

Sept. 22nd. With son & Susan to Kinde Park

1847. Jan 2. Conia
Feb. Bolanus
March Acasta & Clisia
April 16th Lost several weeks
& Boils & unwellness -
~~Interruption~~ ~~Concordia~~ -
Dec 18th And. of Pedunculata Lippis

From Jan 1st 1847 to Jan 1848. 236
copies sold of my Journal
of Murray. Total up to
Jan 1. 1848 - 4100. -

1867

Feb: 19th to Thursday, March 5th Home

Jan 21st to Brit. Agr. at Oxford:

Blairgowrie, Dundee, Glasgow, Dundee
Perth, London, etc.

October 22nd to Thursday, Nov 5th Home

1848. - March 20. Finished Smith's
Instructions & Transcripts of Butler
from Lower to Higher School. -

April 19. Paper, ¹⁰⁰⁰ a Transcript of Butler.
Both these done in interests of work.

April 21. Began series of lectures.

Jan 18. 48. finished.

From 1st to end of year, unusually
unwell, with swimming of head &
depression, treating a very bad
attack of sickness. -

1848

May 15th to Shrewsbury June 1st Home.

July 22nd to Swage & Vanhorne a Cape Castle

Home 25th & to W. Spear Hotel. Looka, getting

a morning in New forest. -

Oct. 10th to Shrewsbury. Oct. 25th. Home. -

Nov. 17th to do. Dec. 26th Home

My father died in morning of Nov.

13th, in his 83rd year. Born at

Lickfield on May 30th 1766. He

was 3rd son of Thomas Darwin

born at Elston in 1731. Settled

in Shrewsbury about 1786. -

1849. Jan 1st to March 10th. Health
very bad with much sickness &
fever of pain - worked on all
week - days. -

March 10th to Jan 30th at the
Lodge Melrose: perfectly ill.
Health greatly improved. -

July 15th Recurrent typhoid fever
of subacute type. Recd
- 1st

Sept 11 to 21. Duty. after at
Birmingham, going to Nelson
on 11 Sunday.

1850. Ap. 28th Command Station
Spain - Dec. 30. Found Balanus
- Portugalia. -

1850

June 11 C 18" Malvern

Aug 10 to 16 Little Bld

Oct 14th. Haverhill 18" to Newgate 22nd Nov

1851. Tarp sent. printed paper
by Lepidoptera. - present

for proof. usual. Lepidoptera

Aug. 18th. began proof

Nov. 12. Finished 90 & began

Genus Conia - (a Sepile C?)

a. Elminias

March 14th to Hudson with
Anna & Elly. returned on
31st — April 16th went started
for Hudson. April 23rd our
dear child expired; 24th I
returned to Emma. Our darling
was born March 2nd 1861. —
July 30th to London. Aug 10th returned
Emma was then for Exhibition on
=

1852

With Jean Siphile living
Genoa, Acasta, (Pygmaea & Ischia
41 days) Coronula (19 days) Nalgya.

1863

Feb 4 to 14th Stayed with Eason

April 27th to May 13th Hartford &

Leite Hills Place

Sept. 2nd. Jackson With; returned

Oct. 14th - Ill, then -

Ill to end of year

April 13th to 15th

April 10th to 12th & 14th

May 22nd to 24th

1864

Began to count seed of
Lytham about April 20th

Finished Lytham paper
about May 25th. Began

Jardine paper, & finished it on Sept.
13th, but afterwards had about a fortnight
for corrections. Hence the paper on
Chimney Plant took four months!!

Sept. 14th. Began Law of Variation for
"Ornith. Animals & Cult. Plants"
& finished this ch. on Nov. 18th

I then began going over again
the earlier Chapt. of Book on
"Ornith. Animals &c."

1864 :

Ill abt Jan. Feb. March. Late
sickness April 13th -

Aug. 25 to Elizabeth for one
week to Charter Place.

The severe illness lasted
seven months.

Copied Medal

Jan 1 1865 Ch. X
I entered on *Gonorrhoëa*
the April 22^d. when (with exception
of a relapsed week) I became ill
& remained so a month & 5 to
nothing (except head aching for 2^d
Frank etc.) the 2^d of
December when I began
counting *Hyman's* etc.
On Dec 25 began again
on Ch. X of *Gonorrhoëa* *benign*.

1865

Fell ill on April 22^o - got
a little better in middle
of September - On Nov. 8th
went to Seaboard & Stan-
ton Bay, & fell ill again
with cold & hot & cold
in beginning of December

1866

Continued correcting Chapt. of
Domestic animals. -

March 1. Began on new 4th edit of }
(Revised 23rd)

Origin of 1250 copies: -

Making 7500 copies altogether.

May 10th Finished Origin, except Revision

giving me
a began Ch. VIII of Dom. Animals.

Dec. 21. Finished Pangea in

Dec. 21. Finished ^{re} giving over all Chapt.

& sent them to printer

1866

April 21st to May 2^o to Examiners.
May 29th to June 8th Little White Place
Nov. 22nd to 29th to Examiners.

Feb. 1^o Catherine D. G.

Oct 3. Susan D. G.

1867 of *Winter in Goshute*
Last Clapt of ~~January~~ & beginning of
New Year - First proof sent

March 1st - Review finished Nov. 15th
I began this book beginning of 1866 (I then
had some work), but owing to interruption
from ^{the} illness, a illness of children; the
various edition of *Origin* & paper,
especially *Orchid's Book* & *Journal*,
I have spent 4 years & 2 months
over it. - 12th copies 10th at
Marriage Sale -

The book not actually published
till Jan 30. 1868. -

1867

Oct. 13 to 21 to Cass Mass. -

June 17 to 24 do. do.

Oct 15 to 24 do. pond at home

Oct. 28 to Dec. 7 do. - up hill

1868

Rev. Book on Var. when Don visited
Jamaica on Jan 20th 1868^{by} On Feb. 10th
a new edition of the book of 1250 copies
Received for the edition 720 £

^{January 1867}
Began the 1st on the 1st of the 1st of the 1st
at Birmingham
Discovered that it was possible
to produce of the 1st of the 1st
Vol. 1.

Feb 4th Began on the 1st of the 1st
May 17th Began on the 1st of the 1st

Aug 21 Returned to home, being kept
at Southampton.

Nov 7 - 16 Freetown.

1869

Feb 10th Friend's 5th Set of Origin: 25

(taken in 46 days -

Feb. 11th Second Selection of records - 2

man & Preliminary Chart for Second
selection (with 10 days for notes on
Orbit etc) to June 10th when I was
to L. Wales - On Aug. 4th resumed
going over the Chart. on Second Selection

1869

Feb. 16 - 24° to 50° snow.

Jan 10th Start for Canton. Barnstable, Mass.
at Shrewsbury - Return to July 31. Heavy
Sept at Stafford. - Vail & Merrill -
Nov. 1st to 9th snow. -

1870

I paid money for printed goods upon 1000
pounds of French, & 1000 1500 = 10,500 upon

The whole of the year at work on
A Description of Man & Selection in
relation to Sex. I began the
work on Feb. 9. 1868; but my
intention. Went to Paris Aug 30/70
in 1/5 mile last proof

1876

Jan 3 - 18' Seamus

Aug 20 - 24' Concha

Jan 24 & Feb 1. Seamus.

Aug 18 - 24' Southampton & William

Oct 13 - 20' Little Bird & John Peter

Dec. 8 - 14' Thomas

1871

I began "Descent of Man & S. L. L. L."
on Feb. 4th 1868 & I have now Jan.
15 corrected last sheet. It is the
taken on nearly 8 years; but 85% of
of Origin took up 46 days & not in
October 10 days; a better copy
may visit the text. —

Descent of Man published on Feb 24th
at price 2500 copies printed & 2000 copies
Received 1870 £.

Jan 17 Open Egyptian & printed for sale
copy on April 27. my attention
June 10 began 6th set of Origin; at
29th finished in 5. but lost many things
now & done. Prof of H & Egyptian are
a wonderful thing & visit.
