

Warrburg 28. June 82.

my dear Francis Darwin!

It is only yesterday that I found the only two letters and some notes, which I have from your father. The whole is enclosed here and at your disposition, but you will understand, that I should like to have the letters and notes returned to me, when you have made use of them? One of the letters and the notes are of great interest.

family

With my best regards to you and your
yours very sincerely

A. Huxley
