

Leamington

June 3rd

Dear Darwin,

I enclose ~~two~~^{four}
letters from your
father which are
interesting as giving
his opinion upon
various topics. e.g.
vivisection, the
"poor old Attendrum"
poetry &c. Two

letters which I
had the delight
of receiving from him
at earlier dates.
I have given to
relatives who keep
them as autographs.
I do not think they
would be useful
to you.

I expect you
will be able to
make a most
wonderfully interesting

volume or rather
two or three - from
your father's letters.

I wish I had more
of them - I kept all
that he wrote me
except the two mentioned,
but I never liked
to occupy his time
by troubling him with
enquiries. He was so
kind in taking pains
to reply, and had
so much to do.

Please remember me very
kindly to your mother &
others of your family.
Yours sincerely E. Ray Lancaster
