

Lowthian

11. Broad St, Carlisle  
June 5. 1882

J. Darwin Esq

Oxford St - "

After reading the "Fertilisation  
of Orchids" I sent Mr Darwin  
specimens of *Cypripedium*  
*pubescens* and received the  
enclosed acknowledgment.

As I have not seen the second  
edition I don't know whether  
the observations have been  
incorporated therein, and  
have now any original value.

Have the good news to return  
me the letter —

I am, dear Sir

Yours very truly

Joseph Lowthian

Bromby
