Dear Mr Darwin,

I see that you are for letters from
your father with a view - as I presume
a hope - of using them for a biography.

I think that I ought to ask you

whether papers etc. may be

possibly to send a glance. I should

not inquire that you would

make any reference to the affair

or publish the letter by name

or any other documents bearing upon it

less upon your father's life, I feel it a
duty to let you know them.

I send you only the letter is
very valuable to me personally and
that I shall therefore be obliged if you
will return it at your leisure.

I hope that your mother is well.

Yours very truly

Julia Stephen
