Aug 23/82

Dear Mr Darwin

I enclose the few letters
from Mr Darwin which I possess.
Though most precious to me
I doubt if you will find much for
publication, though please do any-
thing with them you think

fit -

Thank you very much for
your kind letter to Mr^r Josse &
the photographs - He is much
pleased at being allowed to
use your brother's photograph
which has thus a double
value besides not being known
like the others -

Would you please thank

Mrs Darwin for her kind letter
to myself. I am very glad
to hear that she is going to
Cambridge to be in the
midst of her sons.

Yours very sincerely
Abraham W Buckley.

P.S. The date of the first of the
series I do not know, but it was
the Dec. previous to the publi-

=cation of the Variation of Plants
& Animals the prospect of which
I had been reading
