

There is no change in the recently been made already offered of April 1841 to prove that Davidson is perfectly consistent with revealed Evangelical Christianity. It may be interesting to this connection to have to show that Davidson's own opposition was. This is easily shown by the following from The *Index* of April 1841. "Mr. Davidson was a member of the Church from the first year of its publication to the time of his death. He sustained his interest in this journal by personal contributions from time to time; and when he last renewed his subscription, not many months ago, he enclosed a remittance paid not to be used in the support and circulation of this paper."
