

Sep. 8th

My dear Darwin,

Enclosed is a proof of
the title page of the re-print of
the Nature articles. I send it to
you to see if you approve of the
title - i.e. whether it will interfere
by similarity with the probable title
of the future work on the Biogeography.
If you think that it will

not, or that the similarity will
be immaterial, please send on the
proof to Macmillan etc. But
therein return it to me &
let me know what you
think.

Yours ever,

S. J. Romanes
