

# Explore Darwin's work online now

Charles Darwin's work has evolved again. Now it's available in an online archive that launched this month. The

creators of [www.darwin-online.org.uk](http://www.darwin-online.org.uk) say the Internet trove is only half complete. But it includes manuscripts, notebooks and

**Darwin**

other material, much of which comes from the Darwin Archive at Cambridge University.

"The idea is to make these important works as accessible as possible; some people can only get at Darwin that way," said project director John van Wyhe, a researcher at Christ's College, Cambridge.
